Vol. 64, No. 4, 2009

Simultaneous English language translation of the journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Astrophysical Bulletin* ISSN 1990-3413.

Chemical Inhomogeneity of the Post-Reionization Universe <i>E. O. Vasiliev, S. Yu. Dedikov, and Yu. A. Shchekinov</i>	317
Anisotropy of the Space Orientation of Radio Sources. I: The Catalog <i>V. R. Amirkhanyan</i>	325
Anisotropy of the Space Orientation of Radio Sources. II: The Axis Distribution Function <i>V. R. Amirkhanyan</i>	333
Catalog of Radio Galaxies with $z > 0.3$. III: Angular Sizes and Flux Density According to the NVSS Data <i>M. L. Khabibullina and O. V. Verkhodanov</i>	340
Analysis of the Optical Emission of the Young Precataclysmic Variables HS 1857+5144 and ABELL 65 <i>V. V. Shimansky, S. A. Pozdnyakova, N. V. Borisov, I. F. Bikmaev, V. V. Vlasjuk, O. I. Spiridonova, A. I. Galeev, and S. S. Mel'nikov</i>	349
Parameters of the Visually Close Binary System Hip11253 (HD14874) <i>M. A. Al-Wardat and H. Widyan</i>	365
On the Comparison of Radio-Astronomical Measurements of the Height Structure of Magnetic Field with Results of Model Approximations <i>V. M. Bogod and L. V. Yasnov</i>	372
High Temporal Resolution Coordinate-Sensitive Detector with Gallium-Arsenide Photocathode <i>V. G. Debur, G. M. Beskin, S. V. Karpov, V. L. Plokhotnichenko, A. S. Terekhov, S. S. Kosolobov, and G. E. Shaibler</i>	386
Stellar Spectroscopy in Ground-Based Ultraviolet. I: Observational Technique <i>V. E. Panchuk, V. G. Klochkova, M. V. Yushkin, and M. V. Yakopov</i>	392
Precise Measurements of Spectral Line Profiles <i>G. A. Chountonov</i>	401
Subject Index (Volume 64, 2009)	403
Author Index (Volume 64, 2009)	409
