Vol. 57, No. 11, 2013

Simultaneous English language translation of the journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Astronomy Reports* ISSN 1063-7729.

Supermassive Black Holes and Central Star Clusters: Connection with the Host Galaxy Kinematics and Color <i>A. V. Zasov and A. M. Cherepashchuk</i>	797
The Influence of the Inclination of the Accretor's Magnetic Axis on the Accretion-Disk Structure in Intermediate Polars <i>V. A. Ustyugov, A. G. Zhilkin, and D. V. Bisikalo</i>	811
Modeling of the Formation of Complex Molecules in Protostellar Objects <i>O. V. Kochina, D. S. Wiebe, S. V. Kalenskii, and A. I. Vasyunin</i>	818
The Magnetospheric Structure of Radio Pulsars with Interpulses <i>I. F. Malov and E. B. Nikitina</i>	833
The Interplanetary Magnetic Field: Radial and Latitudinal Dependences <i>O. V. Khabarova</i>	844
The Role of Rising Magnetic Tubes in the Formation of Impulsive Coronal Mass Ejections <i>V. G. Eselevich and M. V. Eselevich</i>	860
First Results of Radio Observations of the Sun and Powerful Discrete Radio Sources Using the Irkutsk Radar <i>R. V. Vasil'ev, D. S. Kushnarev, L. K. Kashapova, V. P. Lebedev, A. V. Medvedev, N. I. Nevedimov, and K. G. Ratovskii</i>	872
On the Calculation of Mean-Weighted Value in Astronomy <i>Z. M. Malkin</i>	882
