Simultaneous English language translation of the journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Astronomy Reports* ISSN 1063-7729.

Long-Term Observations of the Blazar 1ES 1426+428 with the GT-48 Cerenkov Telescope <i>K. S. Strigunov and A. V. Zhovtan</i>	175
The Geminga Radio Pulsar. New Low-Frequency Results <i>O. I. Malov, V. M. Malofeev, D. A. Teplykh, and S. V. Logvinenko</i>	183
A Possible Mechanism for the Formation of Humps in the Orbital Light Curves of WZ Sge Cataclysmic Variable Stars <i>D. A. Kononov, D. V. Bisikalo, V. B. Puzin, A. G. Zhilkin, and A. Yu. Sytov</i>	191
Modeling the Optical Radiation of the Precataclysmic Variable SDSS J212531-010745 <i>V. V. Shimansky, N. V. Borisov, D. N. Nurtdinova, Yu. N. Solovyeva, N. A. Sakhibullin, and O. I. Spiridonova</i>	199
Spectral and Photometric Studies of the Polar USNO-A2.0 0825-18396733 <i>M. M. Gabdeev, N. V. Borisov, V. V. Shimansky, and O. I. Spiridonova</i>	213
The Activity Cycle of V833 Tau from Photometric Data for 1899–2009 <i>N. I. Bondar'</i>	221
Activity Complexes on the Sun in Solar Cycle 24 <i>S. A. Yazev</i>	228
The Motion of a Passively Gravitating Body Inside an Inhomogeneous Elliptical Galaxy <i>S. A. Gasanov</i>	238
