Flares of H ₂ O Maser Emission from SGR B2 in 2005–2012 V. V. Krasnov, E. E. Lekht, and A. M. Tolmachev	567
Infrared Emission and the Destruction of Dust in HII Regions Ya. N. Pavlyuchenkov, M. S. Kirsanova, and D. S. Wiebe	573
Parameters of the Turbulence of the Interplanetary Plasma Derived from Scintillation Observations of the Quasar 3C 48 at the Solar-Activity Minimum S. K. Glubokova, S. A. Tyul bashev, I. V. Chashei, and V. I. Shishov	586
Propagation of a Fast Magnetoacoustic Shock Wave in the Magnetosphere of an Active Region A. N. Afanasyev, A. M. Uralov, and V. V. Grechnev	594
Analysis of the Fine Temporal Structure of Optical Flares on AD Leo on February 4, 2003 M. N. Lovkaya	603
Active Regions Near the Recent Solar-cycle Minimum: Relation between Plasma Heating and Electrical Currents I. Yu. Grigor eva, M. A. Livshits, G. V. Rudenko, and I. I. Mysh yakov	611
Determining the Spatial Configurations of the Coronal Magnetic Fields of Solar Active Regions G. V. Rudenko, I. I. Mysh yakov, and S. A. Anfinogentov	622
Long-term Oscillations in Solar Active Regions Based on Magnetic Fields and Radio Emission Yu. A. Nagovitsyn, E. Yu. Nagovitsyna, and V. E. Abramov-Maximov	636
