MOSCOW UNIVERSITY GEOLOGY BULLETIN

	Pages	
	Russian	English
Neotectonic deformations in the eastern part of the Scythian Platform. L.V. Panina and N.P. Kostenko	5	1
Sedimentation sources and the early stage of bottom sediment transformation in the Eastern Atlantic off the Sahara coast. Zh.V. Dombrovskaya, D.D. Kotel'nikov, A.D. Slukin, and N.A. Solodkova	12	10
Cobalt and nickel in massive sulfide deposits related to nondifferentiated basaltoid rock associations. N.I. Eremin, Nat.E. Sergeeva, A.L. Dergachev, and N.V. Pozdnyakova	22	23
Sedimentation and lithogenesis of the Cretaceous/Paleogene boundary layers in the south-eastern part of the Voronezh Antecline. Paper 2. Sedimentation environment. Yu.G. Tsekhovskii, E.V. Karpova, I.M. Mileeva, and E.V. Golubovskaya	28	33
Experience in the application of nonlinear optical CARS spectroscopy in mineralogy. R.Yu. Orlov	41	44
A contribution to the techniques of regional medium-scale assessment of natural groundwater resources in folded mountainous regions. V.A. Vsevolozhskii and I.F. Fidelli	48	54
The procedure and interpretation of thermometric measurements for revealing subaqueous groundwater discharge zones. S.O. Grinevskii and V.V. Prokof'ev	55	64
Rate and time of subsidence ability formation in loess rocks. V.T. Trofimov	68	73
