VOLUME 60

NUMBER 5

2005

MOSCOW UNIVERSITY GEOLOGY BULLETIN

	Pages	
	Russian/English	
Geological evolution of the Eastern Black Sea region and the outlook for its oil-and-gas content potential. A.P. Afanasenkov, A.M. Nikishin, and A.N. Obukhov	3	1
The character of Late Devonian plume-tectonic and plate-tectonic processes in Kazakhstan and their relationships. A.B. Veimarn, K.E. Degtyarev, and A.V. Tevelev	14	16
Upper Frasnian miospores from the Ust-Bezmoshitsa Formation in the Eastern Ludovaty Cape (Northern Timan). A.L. Yurina and M.G. Raskatova	21	25
Geological evolution of sedimentary basins in the Chukchi Sea and their oil-and-gas potential. Yu.K. Burlin and Yu.V. Shipel'kevich	29	36
Origination of microtextures in endocontact zones of hypabyssal granite plutons. R.N. Sobolev	53	51
Proton irradiation of natural and synthetic diamonds. M.A. Viktorov and M.B. Kopchikov	60	62
Three-dimensional gravity simulation of the tectonosphere in the Romanche transform fault zone (Equatorial Atlantic). A.A. Bulychev, D.A. Gilod, K.V. Krivosheya, A.N. Zaitsev, and A.A. Shreider	74	76
<u>Brief Communications</u>		
The age of subintrusive magmatism in the Parnok ferromanganese deposit area. N.N. Zysin and M.V. Aleksyutin	81	84
The use of reflected waves in crosswell seismic imaging. V.G. Gainanov and N.V. Rykovskaya	83	87
