Vol. 87, No. 3, 2022

Engl./Russ.

Review

Apoptotic Features in Non-Apoptotic Processes

Margarita A. Savitskaya, Ilya I. Zakharov, and Galina E. Onishchenko

191 337

High Serum Progranulin Levels in COVID-19 Patients: A Pilot Study

Fatma B. Özgeriş, Ömer F. Koçak, Nezahat Kurt, Emine Parlak, Neslihan Yüce, and Mevlüt S. Keleş

207 376

Expression of Opsin Genes in the Retina of Female and Male Three-Spined Sticklebacks
Gasterosteus aculeatus L.: Effect of Freshwater Adaptation and Prolactin Administration

Nadezhda S. Pavlova, Albina R. Gizatulina, Tatyana V. Neretina, and Olga V. Smirnova

215 278

Reviews

Protein Aggregation and Cataract: Role of Age-Related Modifications and Mutations
in α -Crystallins

Prashanth Budnar, Ramakrishna Tangirala, Raman Bakthisaran, and Ch. Mohan Rao

225 399

Genomics of Ancient Pathogens: First Advances and Prospects

*Alexandra B. Malyarchuk, Tatiana V. Andreeva, Irina L. Kuznetsova, Svetlana S. Kunizheva,
Maria S. Protasova, Lev I. Uralsky, Tatiana V. Tyazheleva, Fedor E. Gusev,
Andrey D. Manakhov, and Evgeny I. Rogachev*

242 258

Preparative Production and Purification of Recombinant Human Cyclophilin A

*Anastasiia A. Kalinina, Alexander V. Kolesnikov, Arina V. Kozyr, Natalia L. Kulikova,
Maria A. Zamkova, Dmitry B. Kazansky, and Ludmila M. Khromykh*

259 386

Review

Studying of Molecular Regulation of Developmental Processes of Lower Metazoans Exemplified
by Cnidaria Using High-Throughput Sequencing

*Taisia V. Erofeeva, Anastasia P. Grigorenko, Fedor E. Gusev, Igor A. Kosevich,
and Evgeny I. Rogachev*

269 230

Discussion

Variability of Mortality: Additional Information on Mortality and Morbidity Curves under Normal and Pathological Conditions [Commentary on the article by A. G. Malygin “Programmed Risks of Death in Male Patients with Diabetes” published in *Biochemistry (Moscow)*, vol. 86, pp. 1553-1562 (2021)]

Gregory A. Shilovsky
