Reviews

Cancer-Retina Antigens – A New Group of Tumor Antigens

M. O. Golovastova, A. V. Bazhin, and P. P. Philippov

733 923

Lithium Salts – Simple but Magic

*E. Y. Plotnikov, D. N. Silachev, L. D. Zorova, I. B. Pevzner, S. S. Jankauskas,
S. D. Zorov, V. A. Babenko, M. V. Skulachev, and D. B. Zorov*

740 932

Mechanisms of Sensing and Adaptive Responses to Low Oxygen Conditions in Mammals and Yeasts

T. A. Trendeleva, D. A. Aliverdieva, and R. A. Zvyagilskaya

750 944

Prions and Chaperones: Friends or Foes?

Y. Y. Stroylova, G. G. Kiselev, E. V. Schmalhausen, and V. I. Muronetz

761 957

Accelerated Publications

Dissecting the Extended “–10” *Escherichia coli rpsB* Promoter Activity and Regulation *in vivo*

L. V. Aseev, L. S. Koledinskaya, and I. V. Boni

776 974

Inhibitory Effect of Post-micellar SDS Concentration on Thermal Aggregation and Activity of Papain

A. Qadeer, M. Zaman, and R. H. Khan

785 985

Differential Binding of Plasma Proteins by Liposomes Loaded with Lipophilic Prodrugs of Methotrexate and Melphalan in the Bilayer

N. R. Kuznetsova and E. L. Vodovozova

797 999

Interaction of HydSL Hydrogenase from the Purple Sulfur Bacterium *Thiocapsa roseopersicina* BBS with Methyl Viologen and Positively Charged Polypeptides

A. V. Abdullatypov, N. A. Zorin, and A. A. Tsygankov

805 1009

Role of CD11b/CD18 in Priming of Human Leukocytes by Endotoxin Glycoforms from *Escherichia coli*

D. S. Kabanov, S. V. Grachev, and I. R. Prokhorenko

812 1015

11S Storage Globulin from Pumpkin Seeds: Regularities of Proteolysis by Papain

A. S. Rudakova, S. V. Rudakov, I. A. Kakhovskaya, and A. D. Shutov

820 1024

Mutant Forms of *Escherichia coli* Protein L25 Unable to Bind to 5S rRNA Are Incorporated Efficiently into the Ribosome *in vivo*

A. Y. Anikaev, A. P. Korepanov, A. V. Korobeinikova, V. G. Kljashtorny, W. Piendl, S. V. Nikonov, M. B. Garber, and G. M. Gongadze

826 1031

Characterization of Wound-Induced Serine Protease Inhibitor (*wip1*) Genes and Proteins in Turkish Maize Varieties

E. Filiz, H. Tombuloglu, I. Koc, and E. Osma

836 1042

Commentary

On the paper by E. R. Muslikhov, I. F. Sukhanova, and P. V. Avdonin entitled "Arachidonic Acid Activates Release of Calcium Ions from Reticulum via Ryanodine Receptor Channels in C2C12 Skeletal Myotubes" published in *Biochemistry (Moscow)*, Vol. 79, No. 5, pp. 435-439 (2014)

Orison O. Woolcott and Md. Shahidul Islam

845 1052
