Molecular Biophysics

X-Ray- and Heat-Induced Generation of Hydrogen Peroxide and Hydroxyl Radicals in Aqueous Solutions of L-Amino Acids <i>I. N. Shtarkman, S. V. Gudkov, A. V. Chernikov, and V. I. Bruskov</i>	1
The Role of Stacking Interactions in the Binding of the NMDA Receptor Glycine Site with Antagonists and 3-Hydroxykynurenine <i>G. A. Zakharov, A. V. Popov, E. V. Savvateeva-Popova, and B. F. Shchegolev</i>	8
Dynamics of Transfer of Charge Carriers in DNA Molecule <i>N. V. Grib, Yu. A. Berashevich, and V. E. Borisenko</i>	15
Peculiar Features of Kink Dynamics in Inhomogeneous DNA <i>L. V. Yakushevich and L. A. Krasnobaeva</i>	21
Mechanisms of Interaction of Tetrahydrocortisol and Its ApoA-I Complex with a Model DNA Regulatory Element CC(GCC) ₅ /GG(CGG) ₅ <i>L. E. Panin, V. G. Kunitsyn, and L. M. Polyakov</i>	26
DNA Complexes with Polycations Useful for Delivery of DNA into Cells <i>N. A. Kas'yanenko, N. B. Zakharova, D. A. Mukhin, A. V. Slita, O. V. Nazarova, E. A. Leont'eva, and E. F. Panarin</i>	31
A "Microscopic" Model of Complexation between Intercalators and DNA: Analysis of NMR Spectroscopy Data <i>M. P. Evstigneev, D. A. Beshnova, and A. O. Rozvadovskaya</i>	38
Refolding of a Model Polymer Interacting with a Nanotube <i>I. V. Fedik and K. V. Shaitan</i>	44

Complex Systems Biophysics

Effect of Ionizing Radiation on the Synthetic Activity of Blood System Cells in Ground Squirrels in Different Physiological States <i>N. A. Karnaukhova, L. A. Sergievich, D. A. Ignat'ev, and V. N. Karnaukhov</i>	49
A Neural Network Dynamic Model Reproducing the Output Signal of the Ganglion Cell <i>S. A. Gladilin and D. G. Lebedev</i>	59
Investigation and Comparative Characteristic of Factors Determining Human Skin Elasticity <i>G. A. Timofeev, E. E. Faustova, V. N. Fedorova, A. B. Timofeev, and L. S. Kornopeleva</i>	63

Modeling the Dynamics of Risk of Altitude Decompression Sickness <i>V. P. Nikolaev</i>	69
---	----

Discussions

Are There Different Velocity Types of Action Potentials in Higher Plants? <i>S. S. Pyatygin</i>	81
What Are the Genuine Action Potentials in Plants? <i>A. V. Galkin</i>	87
