A simultaneous English language translation of this journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Catalysis in Industry* ISSN 2070-0504.

Catalysis in Chemical and Petrochemical Industry

- Continuous Mode Linoleic Acid Hydrogenation on Pd/Sibunit Catalyst
A. Bernas, I. L. Simakova, K. Eränen, J. Myllyoja, T. Salmi, and D. Yu. Murzin 95
- Modern Catalysts of Deep Hydrotreatment in the Production
of Low-Sulfur Diesel Fuels at Russian Oil Refineries According to Euro-3 and Euro-4 Standards
*O. V. Klimov, A. V. Pashigreva, G. A. Bukhtiyarova,
V. N. Kashkin, A. S. Noskov, and Ya. M. Polunkin* 101
- Steam Conversion of Glycerol on Ni and Au–Ni Catalysts
A. L. Tarasov, Yu. A. Korolev, L. M. Kustov, S. A. Nikolaev, and V. V. Smirnov 108
-

Catalysis and Environmental Protection

- The Process for Catalytic Incineration of Waste Gas on IC-12-S102 Platinum Glass Fiber Catalyst
*A. N. Zagoruiko, S. A. Lopatin, B. S. Bal'zhinimaev, N. R. Gil'mutdinov,
G. G. Sibagatullin, V. P. Pogrebtsov, and I. F. Nazmieva* 113
- Increasing the Efficiency of Deep Photocatalytic Oxidation of Organic Vapors
under the Action of Negative Atmospheric Corona Discharge
A. S. Besov, D. A. Trubitsyn, and A. V. Vorontsov 118
- Sewage Treatment for Chromium(VI) Disposal by Combined Reduction
with Sodium Sulfite in the Presence of Solid Adsorbents
J. V. Goshu, Yu. V. Tsarev, and V. V. Kostrov 126
-

Engineering Problems and Industry

- Conditions Determining Explosion Hazards of Catalytic Oxidation Reactors
D. A. Tyul'pinov, A. V. Suvorin, and A. D. Tyul'pinov 131
- Development of an Intelligent System for Controlling Paraffin
Dehydrogenation Catalyst Operation in Production of Linear Alkyl Benzenes
*E. N. Ivashkina, E. M. Youriev, E. D. Ivanchina,
A. V. Kravtsov, E. V. Frantsina, and R. V. Romanovsiy* 137
-

Domestic Catalysts

- The Development of Catalysts for Dehydrogenation of Lower C₃–C₄ Paraffins Using
the Products of Gibbsite Thermal Activation
*N. A. Pakhomov, V. V. Molchanov, B. P. Zolotovskii, V. I. Nadtochii,
L. A. Isupova, S. F. Tikhov, V. N. Kashkin, I. V. Kharina,
V. A. Balashov, Yu. Yu. Tanashev, and O. A. Parakhin* 145
- Effect of Thermal Treatment Conditions on the Properties of the IK-42-1 Monolith Honeycomb Catalyst
V. Yu. Kruglyakov, L. A. Isupova, G. S. Litvak, N. A. Kulikovskaya, and A. A. Marchuk 152
- Optimization of Support Technology for the Production of Industrial
Microspheric Alumina–Chromia Catalysts for Paraffin Dehydrogenation
*Kh. Kh. Gil'manov, O. N. Nesterov, A. A. Lamberov,
G. E. Bekmukhamedov, A. N. Kataev, and S. R. Egorova* 158

Effect of the Amounts and Proportions of Active Components
on the Activity and Selectivity of a Catalyst for Vinyl Acetate Synthesis
by Gas-Phase Ethylene Acetoxylation

P. S. Voskanyan

167

Biocatalysis

Obtaining Enzymatic Protein and Lipid Hydrolysates from Byproducts
of the Meat Processing Industry

A. A. Krasnoshtanova

173

Heterogeneous Biocatalysts for Production of Sweeteners—Starch Treacle
and Syrups of Different Carbohydrate Composition

G. A. Kovalenko, L. V. Perminova, and L. I. Sapunova

180

Information and Reviews of International Conferences

Prospects for the Development of Oxidative Catalysis (On the Materials
of the Ninth International Conference EuropaCat-IX, 2009 Catalysis for a Sustainable World)

E. M. Sul'man, M. G. Sul'man, and V. Yu. Doluda

186

The 6th World Congress on Oxidation Catalysis

G. I. Panov

189

“Biotechnology: State of the Art and Prospects of Development”
Fifth International Congress (March 2009, Moscow)

E. M. Sul'man, M. G. Sul'man, and V. Yu. Doluda

194

Chronicle

Winners of the V.N. Ipat'ev Prize

196
