

Contents

Vol. 42, No. 1, 2018

Distributed worldwide by Springer. *Moscow University Computational Mathematics and Cybernetics* ISSN 0278-6419.

On the Symplectic Eigenvalues of Positive Definite Matrices <i>Kh. D. Ikramov</i>	1
Investigating One Class of Extended Open-Loop Guidance Problems <i>S. M. Orlov</i>	5
A Mathematical Model for Selecting the Optimum Norms of Regulating Economic Activity <i>A. A. Vasin and A. S. Tyuleneva</i>	15
Two Bilinear (3×3) -Matrix Multiplication Algorithms of Complexity 25 <i>B. V. Chokaev and G. N. Shumkin</i>	23
Computations on Counter Machines with Summator <i>S. S. Marchenkov and I. V. Savitskii</i>	31
On the Deductive Security of Queries to Databases with Multi-Bit Records <i>M. M. Abbas, N. P. Varnovskiy, V. A. Zakharov, and A. V. Shokurov</i>	39
An Algorithm for Constructing Single Processor Static–Dynamic Schedules <i>V. A. Kostenko and A. S. Smirnov</i>	44
