Simulating the Heart's Electric Activity: Numerical Methods for Inverse Problems <i>S. I. Solov'eva and S. R. Tuikina</i>	51
Parallel Assimilation of Observed Data in the Hydrodynamic Model of the Ocean Circulation <i>K. P. Belyaev, A. A. Kuleshov, I. N. Smirnov, and C. A. S. Tanajura</i>	58
Optimal Modes in a Multidimensional Model of Economic Growth <i>Yu. N. Kiselev, M. V. Orlov, and S. M. Orlov</i>	64
Stabilized Hard Thresholding for an Unknown Noise Level <i>O. V. Shestakov</i>	70
Boundaries of the Precision of Restoring Information Lost after Rounding the Results from Observations <i>V. G. Ushakov and N. G. Ushakov</i>	76
Complexity of the Satisfiability Problem for Multilinear Forms over a Finite Field <i>S. N. Selezneva</i>	81
Some Asymptotically Optimal One-Sided Embeddings of Trees of Similar Formulas into Rectangular Lattices <i>S. A. Lozhkin and L. I. Vysotsky</i>	89
Constructing a Speech Audio—Video Corpus by Aligning Long Segments of Speech and Text <i>I. A. Karpukhin and A. S. Konushin</i>	97
