Numerical Solution of a Semilinear Matrix Equation of the Stein Type in the Normal Case <i>Kh. D. Ikramov and Yu. O. Vorontsov</i>	51
An Iterative Way of Solving the Inverse Scattering Problem for an Acoustic System of Equations in an Absorptive Layered Nonhomogeneous Medium <i>A. V. Baeв and S. V. Gavrilov</i>	55
A New Algorithm for Generating Tetrahedral Grids <i>A. S. Zhilkin and D. Yu. Sychugov</i>	63
Algorithm for Constructing a Guaranteeing Program Package in a Control Problem with Incomplete Information <i>N. V. Strelkovskii and S. M. Orlov</i>	69
A Coordinate-Wise Estimate of the Reachability Set of a Controlled System <i>M. S. Nikolskii</i>	80
Limit Theorems for Risk Estimate in Models with Non-Gaussian Noise <i>O. V. Shestakov</i>	85
Optimal Positionings of Service Stations <i>T. V. Zakharova and A. A. Fisak</i>	89
