Pages
Russian/English

Analysis of eigen mode existence in dielectric waveguides. D.V. Kondakov	5	1
Boundary function differential equation numerical calculation. D.S. Filippychev	10	7
Critical cone properties in optimal control problems. A.V. Arutyunov and N.Yu. Chernikova	15	13
One method of restoration of counter images. V.G. Ushakov and N.G. Ushakov	20	19
Nonclassical bound of the rate of convergence in the multidimensional central limit theorem. L.S. Yaroslavtseva	24	25
Mathematical modeling of biochemistry reactions. A.A. Vasin and A.E. Teplov	31	32
Optimal strategy in the insurer-policyholder game in the stochastic market interest rate environment. D.Yu. Gospodarik	38	40
On testing repetition-free functions. A.A. Voronenko	45	47
