Distributed worldwide by Springer. *Moscow University Computational Mathematics and Cybernetics* ISSN 0278-6419.

On the Convergence of the Dirichlet Grid Problem with a Singularity for a Singularly Perturbed Convection–Diffusion Equation <i>T. Ya. Ershova</i>	147
Influence of Gibbs Phenomenon on the Mutual Coherence in Sparse Representations <i>A. S. Krylov and A. V. Umnov</i>	155
On the Limiting Distribution of Order Statistics in Random Size Sampling <i>V. I. Pagurova</i>	161
Theoretical Game Analysis of Position Auctions according to the Vickrey–Clarke–Groves Mechanism with Two-Stage Ranking <i>N. G. Blinov</i>	165
Modeling Futures Price Dynamics on the RTS and MICEX Indices <i>D. Yu. Golembiovsky, D. V. Denisov, and A. S. Petrovykh</i>	171
Machine Learning Methods for Analyzing User Behavior when Accessing Text Data in Information Security Problems <i>I. V. Mashechkin, M. I. Petrovskii, and D. V. Tsarev</i>	179
Investigating and Predicting the Perceptibility of Channel Mismatch in Stereoscopic Video <i>D. S. Vatolin and S. V. Lavrushkin</i>	185
