Vol. 48, No. 2, 2009

A simultaneous English language translation of this journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Journal of Computer and Systems Sciences International* ISSN 1064-2307.

Stability and Stabilization

Stabilizing Equilibrium States of Double Pendulum Loaded by Follower and Concervative Forces

P. D. Krut'ko and V. E. Palosh 165

A Problem of Rated Stability of Dynamic Systems

S. V. Zubov 179

Control in Deterministic Systems

Nonlinear Oscillations Control. Energy Invariants

Al. A. Kolesnikov 185

Control in Stochastic Systems and Under Uncertainty Conditions

A Problem of Group Pursuit in the Class of Impulse Strategies of Pursuers

N. N. Petrov 199

Optimal Control

Optimal Shock Isolation of a Two-Component Viscoelastic Object

D. V. Balandin, N. N. Bolotnik 206

Adaptive and Robust Control

Robust Control of a Linear Object under Parametric Uncertainty

E. R. Bovshuk 220

Discrete Systems

Blocking of Group Automata. II. Mutual Interlocking

I. A. Golovinskii 231

Systems Analysis and Operations Research

Mathematical Model of Power System Management in Conditions of a Competitive Wholesale Electric Power (Capacity) Market in Russia

M. R. Davidson, Yu. V. Dogadushkina, E. M. Kreines, N. M. Novikova, A. V. Seleznev, Yu. A. Udal'tsov, and L. V. Shiryaeva 243

Development of N-Tuple Algebra for Logical Analysis of Databases with the Use of Two-Place Predicates

A. A. Zuenko and A. Ya. Fridman 254

Investigation of Stability of Nonlinear Continuous–Discrete Models of Economic Dynamics Using Vector Lyapunov Function. I

R. I. Kozlov and O. R. Kozlova 262

Artificial Intelligence

Models and Technologies for the Extraction of Aggregated Knowledge to Control Processes of the Retrieval of Non-Structured Information
M. G. Kreines 272

Pattern Recognition and Image Processing

The Use of Projective Morphologies for Object Detection and Identification in Images
Yu. V. Vizilter and S. Yu. Zheltov 282

Navigation Systems

Autonomous Navigation System of Near-Earth Spacecraft
E. L. Akim, A. P. Astakhov, R. V. Bakit'ko, V. P. Pol'shchikov, V. A. Stepan'yants, A. G. Tuchin, D. A. Tuchin, and V. S. Yaroshevskii 295

Control Systems of Moving Objects

Control Systems of Moving Objects at Formation of Estimates of Dynamic Properties of Flying Vehicles in Longitudinal Motion
V. V. Lukoshkin 313

Control in Biological Systems

Choice of Optimal Strategy of Tumor Chemotherapy in Gompertz Model
E. S. Chumerina 325
