Data Processing and Identification

Algorithm for Identifying Parameters of the Dynamic System of an Aircraft

I. A. Boguslavskii, O. V. Kruglyakova, N. Ya. Miroshichev, and G. M. Tsimbalyuk 333

Optimal Control

LMI-Based Synthesis of Dynamic Vibration Dampers

D. V. Balandin and I. A. Fedotov 345

Control in Systems with Distributed Parameters

The Successive Parameterization Method of Control Actions
in Boundary Value Optimal Control Problems for Distributed Parameter Systems

Yu. E. Pleshivtseva and E. Ya. Rapoport 351

Optimization Methods

Studying Properties of Lagrangian Bounds for Many-to-Many Assignment Problems

I. Litvinchev, S. Rangel, M. Mata, J. Saucedo 363

Systems Analysis and Operations Research

Investigation of Stability of Nonlinear Continuous–Discrete Models of Economic
Dynamics Using Vector Lyapunov Function. II.

R. I. Kozlov and O. R. Kozlova 370

Fuzzy Multicriteria Choice among Alternatives: Worst-Case Approach

A. P. Rotshtein 379

Solution of Sectorization Problems for an Air Traffic Control Area.
I. Basic Principles and Questions of Airspace Sectorization
and its Formalization as an Optimization Problem

O. V. Degtyarev, V. N. Minaenko, and M. O. Orekhov 384

Artificial Intelligence

Reducing One Class of Machine Learning Algorithms
to Logical Operations of Plausible Reasoning

K. A. Naidenova 401

Pattern Recognition and Image Processing

Design of Data Segmentation and Data Compression Operators Based
on Projective Morphological Decompositions

Yu. V. Vizilter 415

Complex Technical Control Systems and Information Control Complexes

Structure of an Onboard Decision Making Support System
at the Stage of Passenger Aircraft Takeoff

M. G. Glubokaya

430

Navigation Systems

GPS-Correction in the Problem of Low-Orbit Spacecraft Navigation

A. I. Tkachenko

447

Control Systems of Moving Objects

On a Motion Control Problem for an Object in a Conflict Environment

A. A. Galyaev, E. P. Maslov, and E. Ya. Rubinovich

458

On the Theory of Autonomous Angular Stabilization Systems of Missiles for Salvo Firing

D. K. Andreichenko and K. P. Andreichenko

465

On the Possibility of Control of Interconnected Mechanical
and Thermal Processes in Nonlinear Temperature-Perturbed Dynamic Systems

V. E. Dzhashitov and V. M. Pankratov

481

Robotics

Control of a Three-Link Robot Moving on the Plane with Friction

K. S. Sorokin

489
