Real and Complex Analysis

Convergence of Two-Dimensional Trigonometric Interpolation Polynomials of Functions
of Bounded Harmonic Variation

A. R. Nurbekyan and A. A. Sahakyan 157

Optimal Uniform and Tangential Approximation in an Angle by Meromorphic Functions

S. H. Aleksanyan 166

Differential Equations

On a Class of Elliptic Systems Involving the $p(x)$ -Laplacian and Nonlinear Boundary
Conditions

S. H. Rasouli and K. Fallah 175

Geometry

Some Properties of m -th Root Finsler Metrics

A. Tayebi, A. Nankali and E. Peyghan 184

Stochastic and Integral Geometry

Covariogram of a Parallelogram

A. G. Gasparyan and V. K. Ohanyan 194
