Distributed worldwide by Springer. *Journal of Contemporary Mathematical Analysis* ISSN 1068-3623.

Algebra and Geometry

Subdirectly Irreducible Algebras with Hyperidentities of the Variety of De Morgan Algebras <i>Yu. M. Movsisyan and V. A. Aslanyan</i>	241
Cheeger-Gromoll Type Metrics on the (1,1)-tensor Bundles <i>E. Peyghan, A. Tayebi and L. Nourmohammadi</i>	247

Differential Equations

On Smooth Solutions of a Class of Almost Hypoelliptic Equations <i>H. G. Ghazaryan</i>	259
Boundary Value Problems of Second Order Nonlinear Difference Equations With Jacobi Operators <i>X. Liu, Y. Zhang, H. Shi and X. Deng</i>	273
On a Non-dissipative Kirchhoff Viscoelastic Problem <i>N. Tatar</i>	285

Real and Complex Analysis

Some Properties of Certain Classes of p -valent Functions Defined by the Hadamard Product <i>M. K. Aouf and T. M. Seoudy</i>	297
Meromorphic Functions With Deficiencies Generating Unique Range Sets <i>A. Banerjee and S. Majumder</i>	310
On Green Potentials with Bounded Square Integral Means in the Unit Disc <i>A. Jerbashian and E. Diaz</i>	322
Estimates for the Measures of Exceptions of the Exceptional Values Associated with Logarithmic Derivatives of Meromorphic Functions <i>V. G. Petrosyan</i>	329
On a Convergence of the Rational-Trigonometric-Polynomial Approximations Realized by the Roots of the Laguerre Polynomials <i>A. Poghosyan</i>	339
Limit Relations for Records with Confirmation <i>V. K. Saghatelian</i>	348
Estimates for Generalized Derivatives of Quasipolynomials from Muntz System <i>A. K. Taslakyan</i>	356
