Nikolai Nikolaevich Krasovskii
(A Tribute in Honor of His Eighty-Fifth Birthday) 1401

Ordinary Differential Equations

Barrier Strips and Positive Solutions of First Order Singular and Regular Initial Value Problems
R. P. Agarwal, P. S. Kelevedjiev, and D. O'Regan 1408

Joint Estimates of Quasi-Integrals of Three-Dimensional Skew-Symmetric Linear Differential Systems
N. A. Izobov, S. E. Karpovich, L. G. Krasnevskii, and A. V. Lipnitskii 1414

Linear Differential Equations in L_2 with Radial Derivatives
V. D. Repnikov 1423

On Two-Parameter Spectral Problems and Their Application
V. K. Romanko 1429

Quadratic Systems with Maximum Number of Limit Cycles
L. A. Cherkas 1440

Partial Differential Equations

Solvability of a Class of Boundary Value Problems for Higher-Order Operator-Differential Equations
R. Z. Gumbataliev 1451

Criterion for the Strong Solvability of the Mixed Cauchy Problem for the Laplace Equation
T. Sh. Kal'menov and U. A. Iskakova 1460

Goursat Problem for a Fourth-Order Equation with the Biwave Operator
V. I. Korzyuk and E. S. Cheb 1467

Lifespan Estimates for Solutions of Some Evolution Inequalities
E. Mitidieri and S. I. Pokhozhaev 1473

Basis Property of the Eigenfunctions of a Generalized Gasdynamic Frankl Problem with a Nonlocal Evenness Condition and with a Discontinuity in the Solution Gradient
E. I. Moiseev and N. Abbasi 1485

Integral Equations

On a System of Singular Integral Equations Whose Kernels Contain Solutions of Transmission Problems
A. A. Polosin 1491

Control Theory

Invariant Families of Sets and Zero Dynamics of Linear Nonstationary Control Systems with Scalar Input and Output
I. V. Gaishun 1497

Estimates for Normal Solutions in Problems with Irregular Zonal Controls for the Wave Equation
M. M. Potapov 1507

On the Optimal Boundary Control of Vibrations of a Spherical Layer
S. A. Sergeev 1514

Optimal Coefficient Control in Parabolic Systems
R. K. Tagiev 1526

Short Communications

On First Integrals of a Class of Third-Order Differential Equations
N. S. Berezkina, I. P. Martynov, and V. A. Pron'ko 1536

On the Convergence Rate of the Finite Element Method in a Semicoercive Problem with Friction
E. M. Vikhtenko and R. V. Namm 1539

On a Spectral Problem in the Theory of the Heat Operator
N. Yu. Kapustin 1544

On the Solvability of the Tricomi Problem for the Lavrent'ev–Bitsadze Equation with Mixed Boundary Conditions
T. E. Moiseev 1547

Investigation of the Boat Control Equation with Regard of Delay
L. Z. Fishman 1550

On a Linear nth-Order Differential Equation with Special Right-Hand Side in a Banach Space
V. I. Fomin 1554
