Ordinary Differential Equations

Reduction of Underdetermined Systems of Ordinary Differential Equations: V
V. I. Elkin 1

Analysis of the Set of Trajectories of Nonlinear Dynamics: Equations with Causal Robust Operator
A. A. Martynyuk and Yu. A. Martynyuk-Chernienko 11

Inverse Problem on the Half-Line for the Sturm–Liouville Operator with Periodic Potential
A. B. Khasanov and A. B. Yakhshimuratov 23

Control Theory

Maximum Principle in an Optimal Control Problem with Equality State Constraints
A. V. Arutyunov and D. Yu. Karamzin 33

Closed-Form Expression for a Generalized Solution in W_p^1 of a Mixed Problem Describing Radially Symmetric Vibrations of a Three-Dimensional Ball
A. V. Kurkina 47

Hybrid Discrete-Continuous Systems with Control: II. State Space Method
V. M. Marchenko 54

Finite Spectrum Assignment Problem for a Differential System of Neutral Type
A. V. Metel'skii 69

Numerical Methods

Solution to Classes of Inverse Coefficient Problems and Problems with Nonlocal Conditions for Parabolic Equations
K. R. Aida-zade and A. B. Rahimov 83

Stability and Convergence of Difference Schemes Approximating a Nonlocal Steklov Boundary Value Problem of the Second Class
A. A. Alikhanov 94

Compatible Convergence Estimates in the Method of Refinement by Higher-Order Differences
G. K. Berikelashvili and B. G. Midodashvili 107

Projection-Difference Method with the Crank–Nicolson Scheme in Time for the Approximate Solution of a Parabolic Equation with an Integral Condition for the Solution
V. V. Smagin 116

Short Communications

On the Absolute and Uniform Convergence of Generalized Fourier Integrals in Vector Eigenfunctions of the Operator of Elasticity Theory in an Unbounded Domain
M. Ismati and N. M. Ismatov 127

Laplace Invariants for a Generalized Boussinesq–Love Equation
A. N. Mironov and L. B. Mironova 132

Problem with the Frankl Condition on a Characteristic for a Class of Equations of Mixed Type
M. Mirsaburov and S. T. Chorieva 138

On the Effectiveness of Perturbations in the Class of Linear Hamiltonian Systems
T. V. Salova 144

Existence of a Two-Dimensional Linear System with Continual Spectra of Total and Vector Frequencies
A. Kh. Stash 146
