Ordinary Differential Equations

On Implicit Differential Inclusions Generated by Orderly Covering Mappings
S. E. Zhukovskiy 1

Convergence of the Spectral Expansion in the Eigenfunctions of a Fourth-Order Differential Operator
V. M. Kurbanov and Kh. R. Godzhaeva 8

Inverse Spectral Problems for Differential Pencils on Arbitrary Compact Graphs
V. Yurko 24

Partial Differential Equations

On a Linear Inverse Problem for a Multidimensional Mixed-Type Equation
S. Z. Dzhamalov and R. R. Ashurov 34

Construction of Exact Solutions of Irregularly Degenerate Elliptic Equations with Analytic Coefficients
D. P. Emel'yanov and I. S. Lomov 46

Instantaneous Blow-Up of a Weak Solution of a Problem in Plasma Theory on the Half-Line
M. O. Korpusov 60

Laplace Invariants of an Equation with a Dominating Partial Derivative and Three Independent Variables
A. N. Mironov and L. B. Mironova 68

Control Theory

Generalized Weierstrass Condition in the Classical Calculus of Variations
A. V. Arutyunov 75

Direct Scheme for the Asymptotic Solution of Linear-Quadratic Problems with Cheap Controls of Different Costs
M. A. Kalashnikova and G.A. Kurina 84

Guaranteed Control Problem for a Parabolic Equation with Memory
V. I. Maksimov 105

Study of the Continuous-Time Open Dynamic Leontief Model as a Linear Dynamical Control System
N. G. Pavlova 113

Universal Control System for a Parametric Family of Differential Games
E. R. Smol'yakov and V. A. Efryushkina 120

Controllability Problems for the Korteweg–de Vries Equation with Integral Overdetermination
A. V. Faminskii 126

Short Communications

Some Cases of the Cauchy Problem for First-Order Differential Equations with Discontinuous Coefficients
D. S. Anikonov and D. S. Konovalova 138

Finiteness of the Spectrum of Boundary Value Problems
A. M. Akhtyamov 142

L_2 Solvability of the Tricomi–Neumann Problem for a Parabolic-Hyperbolic Equation with Degenerate Hyperbolic Part
N. Yu. Kapustin 145
