Ordinary Differential Equations

Methods of Bifurcation Theory in Multiparameter Problems of Hydroaeroelasticity <i>T. E. Badokina, A. B. Begmatov, P. A. Vel'misov, and B. V. Loginov</i>	143
On One Method for Studying the Cauchy Problem for a Singularly Perturbed Nonlinear First-Order Differential Operator <i>E. E. Bukzhalev</i>	152
On a Nonlinear Eigenvalue Problem Related to the Theory of Propagation of Electromagnetic Waves <i>D. V. Valovik</i>	165
Boundary Value Problem for a Linear Ordinary Differential Equation with a Fractional Discretely Distributed Differentiation Operator <i>L. Kh. Gadzova</i>	178
Dirichlet Problem for a Fractional-Order Ordinary Differential Equation with Retarded Argument <i>M. G. Mazhgikhova</i>	185
On the Generalization of Logarithmic Upper Function for Solution of a Linear Stochastic Differential Equation with a Nonexponentially Stable Matrix <i>E. S. Palamarchuk</i>	193

Partial Differential Equations

On a Nonlocal Problem with Integral Conditions for the System of Hyperbolic Equations <i>A. T. Assanova</i>	201
On Necessary and Sufficient Conditions for the Existence of a Classical Solution of an Inhomogeneous Cauchy–Riemann System <i>S. Baizhev, G. E. Grishanina, and E. Mukhamadiev</i>	215
The Dirichlet Problem for a Hyperbolic-Type Equation with Power Degeneracy in a Rectangular Domain <i>Yu. K. Sabitova</i>	228
Bitsadze Equation with Supersingularities in the Lowest Coefficients <i>A. P. Soldatov and A. B. Rasulov</i>	239

Numerical Methods

Boundary Value Problems for Degenerating and Nondegenerating Sobolev-Type Equations with a Nonlocal Source in Differential and Difference Forms <i>M. Kh. Beshtokov</i>	250
On a Continuous Third-Order Method for Monotone Operator Equations in Hilbert Space <i>I. P. Ryazantseva</i>	268

Short Communications

A Generalized Fourier Method for the System of First-Order Differential Equations with an Involution and a Group of Operators

A. G. Baskakov and N. B. Uskova

277

Galerkin's Method in the Theory of Dipole Antennas

S. I. Eminov

282
