Vol. 36, No. 3, 2000
Simultaneous English language translation of the journal is available from MAIK "Nauka/Interperiodica" (Russia). Distributed worldwide by Kluwer Academic/Plenum Publishers. *Differential Equations* ISSN 0012-2661.

Ordinary Differential Equations

Integral Representations of Discontinuous Solutions of a Singular Second-Order Differential Operator on a Finite Interval
O. V. Belyantsev 325

On the Basis Property of Riesz Means of Spectral Expansions Corresponding to a Nonself-Adjoint Ordinary Differential Operator of Higher Order: I
A. M. Zuev 337

Complete and Partial Averaging of Nonautonomous Nonlinear Dissipative Systems
I. V. Gusakov and A. V. Danilin 349

Equiconvergence of Biorthogonal Expansions in Root Functions of Differential Operators: II
V. M. Kurbanov 358

Asymptotic Behavior of the Spectral Measure of the Operator Family $-y'' - \varepsilon xy$
A. S. Pechentsov and A. Yu. Popov 377

A Formula for the Minimal Exponent of a Three-Dimensional System
I. N. Sergeev 388

A Remark on Bressan's Regularization Theorem
V. V. Filippov 399

Properties of Differential and Approximate Finite-Difference Equations
L. Z. Fishman 403

Partial Differential Equations

An *a priori* Estimate for the Norms of Solutions of the Dirichlet Problem for a Class of Regular Operators
A. G. Bagdasaryan 409

The Basis Property of a System of Root Functions of a Nonlocal Problem for a Third-Order Equation with a Parabolic-Hyperbolic Operator
A. S. Berdyshev 417

Moment Functions of the Solution of the Cauchy Problem for a First-Order Linear Differential Equation with Random Coefficients
V. G. Zadorozhnii and L. N. Stroeva 423

The Fourier Method in the Cauchy Problem and Absolutely Representing Systems of Exponentials: III
Yu. F. Korobeinik 433

A Nonlocal Boundary Value Problem for a Higher-Order Mixed Equation
G. P. Paskalev 441

A Class of Parabolic Functional-Differential Equations of Nonlinear Optics
A. V. Razgulin 449

Some Properties of the Parabolic Volume Mass Potential: II
M. F. Cherepova 457

Short Communications

Asymptotic Behavior of Solutions of Some Nonautonomous Differential Equations
A. M. A. Abou-El-Ela and A. I. Sadek 466

A Class of Inverse Problems for a Quadratic Pencil of Sturm–Liouville Operators
I. M. Guseinov and I. M. Nabiev 471

On the Solution of the Frankl Problem
A. V. Pskhu 474

Some Estimates in $\mathbf{R}^n$ for Linear Partial Differential Φ_+-Operators
V. M. Tyurin 477

Self-Similar Solutions of a System of Two Nonlinear Partial Differential Equations
V. V. Tsegel'nik 480
