Partial Differential Equations

On the Relationship between the Solutions of an Abstract Euler–Poisson–Darboux Equation and Fractional Powers of the Operator Coefficient in the Equation
A. V. Glushak 577

Mixed Problem with a Nonlinear Boundary Condition for a Semilinear Wave Equation
O. M. Jokhadze 593

Elliptic Differential Operators with Analytic Coefficients and Linear Degeneracy
D. P. Emel'yanov 610

Classical Solutions of Hyperbolic Differential–Difference Equations in a Half-Space
N. V. Zaitseva 631

Rayleigh Waves for Elliptic Systems in Domains with Periodic Boundaries
S. A. Nazarov 642

Operator Equations of the Second Kind: Theorems on the Existence and Uniqueness of the Solution and on the Preservation of Solvability
A. V. Chernov 660

Integral and Integro-Differential Equations

On the Properties of a Semigroup of Operators Generated by a Volterra Integro-Differential Equation Arising in the Theory of Viscoelasticity
Yu. A. Tikhonov 673

On One Class of Multidimensional Integral Equations of Convolution Type with Convex Nonlinearity
Kh. A. Khachatryan and H. S. Petrosyan 691

Numerical Methods

Strong-Norm Convergence of the Errors of the Projective-Difference Method with the Crank–Nicolson Scheme in Time for a Parabolic Equation with a Periodic Condition on the Solution
A. S. Bondarev 702

Optimal Computing Units in the Problem of Discretizing Solutions of the Klein–Gordon Equation and Their Limit Errors
A. B. Utesov and A. A. Bazarkhanova 709

Short Communications

On the Asymptotic Behavior of Solutions of Odd-Order Differential Equations with Oscillating Coefficients
Ya. T. Sultanaev, A. R. Sagitova, and B. I. Mardanov 723
