Ordinary Differential Equations

Existence and Asymptotics of Solutions for a Class of Second-Order Quasilinear Ordinary Differential Equations
R. G. Akhmetov 757

The Eigenvalue and the Eigenfunction of the Sturm–Liouville Problem Treated as Analytic Functions of the Integrable Potential
V. A. Vinokurov 764

Strong Stability of Linear Hamiltonian Systems in Total Differentials with Periodic Coefficients
I. V. Gaishun 773

On the Structure of Generalized Hyperbolic Attractors of Mappings That Are Not One-to-One
V. A. Dobrynskii 780

On the Neumann Problem for an Ordinary Differential Equation with Discontinuous Right-Hand Side
A. V. Zuev and V. V. Filippov 791

Asymptotic Integration of Differential Equations with Oscillatory Terms of Large Amplitudes: I
V. B. Levenshtam 797

A Second-Order Continuous Regularization Method for Nonlinear d-Accretive Equations in a Banach Space
I. P. Ryazantseva and O. Yu. Bubnova 808

An Inverse Problem for Differential Systems on a Finite Interval in the Case of Multiple Roots of the Characteristic Polynomial
V. A. Yurko 818

Partial Differential Equations

Linear Differential Relations Between Solutions of a Class of Euler–Poisson–Darboux Equations
A. V. Aksenov 824

A Criterion for the Existence of Eigenfunctions of the Darboux–Protter Spectral Problem for Degenerating Multidimensional Hyperbolic Equations
S. A. Aldashev 833

The First Boundary Value Problem for a Parabolic Equation on a Manifold
Yu. N. Bernatskaya 840

Time-Nonlocal Problems for Schrödinger Type Equations: II. Results for Specific Problems
D. G. Gordeziani and G. A. Avalishvili 852

The Cauchy Problem for the Heat Equation in Zygmund Spaces
A. N. Konenkov 860

Blow-Up of the Solution of an Initial-Boundary Value Problem for a Nonhomogeneous Equation of Pseudoparabolic Type
M. O. Korpusov 873

Solvability of a Parabolic Transmission Problem with the Condition of a Generalized Proper Lumped Source
V. V. Semenov 878

A Method for Studying a Coupled System of Differential Equations
Yu. T. Sil'chenko 887

Chronicle

On the Seminar on Qualitative Theory of Differential Equations at Moscow State University 895
