Ordinary Differential Equations

Conditions for the k -Fold Completeness ($0 < k \leq n$) of Root Functions of an n th-Order Ordinary Differential Operator Pencil <i>A. I. Vagabov and Z. A. Abdurakhmanov</i>	771
The Group of Linear Hamiltonian Systems in Total Differentials and Strong Stability of Its Stationary and Periodic Elements <i>I. V. Gaishun</i>	779
Representation of Solutions of Hybrid Difference-Differential Systems <i>V. M. Marchenko and O. N. Poddubnaya</i>	789
Construction of Periodic Solutions of a Nonlinear Singularly Perturbed System of Differential Equations with Degeneration <i>P. F. Samusenko</i>	805
Eigenvalues and Eigenfunctions of a Differential Operator with Nonlocal Boundary Conditions <i>Yu. T. Sil'chenko[†]</i>	814
Fundamental Operator Functions of Singular Differential Operators under Spectral Boundedness Conditions <i>M. V. Falaleev and E. Yu. Grazhdantseva</i>	819

Partial Differential Equations

On a Singularly Perturbed System of First-Order Partial Differential Equations with Various Degrees of a Small Parameter <i>V. F. Butuzov and E. A. Derkunova</i>	826
On Entire Solutions of a Semilinear Elliptic Equation on the Plane <i>A. L. Gladkov and N. L. Slepchenkov</i>	842
Homogenization of Variational Inequalities for the Biharmonic Operator with Constraints on ε -Periodically Arranged Subsets <i>M. N. Zubova</i>	853
The Cauchy Problem for Parabolic Equations in Zygmund Spaces <i>A. N. Konenkov</i>	867
A Generalization of the Lions Theory for First-Order Evolution Differential Equations with Smooth Operator Coefficients: II <i>F. E. Lomovtsev</i>	874
On the Unique Solvability of Wave Systems in Various Classes of Distributions <i>D. A. Nomirovskii</i>	882

Short Communications

Reduction to Transversality of Curves in the Construction of a Dulac Function <i>A. A. Grin'</i>	896
On the Critical Parameter Value for the Higher Sigma-Exponent of Linear Differential Systems <i>E. K. Makarov</i>	901
Basis Property in $L_p(0, 1)$ of the System of Eigenfunctions Corresponding to a Problem with a Spectral Parameter in the Boundary Condition <i>D. B. Marchenkov</i>	905
A Study of a Pendulum-Type Delay Equation <i>L. Z. Fishman</i>	909

Chronicle

On the Seminar on Qualitative Theory of Differential Equations at Moscow State University	912
