Vol. 36, No. 7, 2000
Simultaneous English language translation of the journal is available from MAIK "Nauka/Interperiodica" (Russia). Distributed worldwide by Kluwer Academic/Plenum Publishers. *Differential Equations* ISSN 0012-2661.

Partial Differential Equations

Application of a Finite-Difference Integral Transform to Ionkin–Samarskii Problems
E. A. Gasymov 963

The Limit Subdomain Decomposition of Some Spectral Problems in Strengthened Sobolev Spaces
E. G. D'yakonov 971

The Two-Dimensional Heat Equation with Nonlocal Boundary Conditions
N. I. Ionkin and V. A. Morozova 982

Nonnegative Solutions of Quasilinear Elliptic Inequalities in Domains Contained in a Layer
A. A. Kon'kov 988

The Continuation Problem for the Prandtl Boundary Layer
V. V. Kuznetsov 998

A Modified Cauchy Problem for the Fractional-Order Differentiation Operator with Fixed Beginning and End
A. M. Nakhushev 1003

Numerical Methods. Finite-Difference Equations

Asymptotic Stability of the Decomposition Method for Parabolic Equations
V. N. Abrashin 1010

Analysis and Comparison of Some Analytic and Numerical Solutions of Hemodynamic Problems
I. V. Ashmetkov, S. I. Mukhin, N. V. Sosnin, A. P. Favorskii, and A. B. Khrulenko 1021

Discrete Models of the Boltzmann Equation for Mixtures
V. V. Vedenyapin and S. A. Amosov 1027

Conservativity, Accuracy, and Asymptotic Properties of Numerical Methods for Nonlinear Schrödinger Type Equations
V. M. Volkov and N. P. Matsuka 1033

The Canonical Form of Reducible Discrete Systems with Degenerate Coefficient Matrices
I. V. Gaishun 1043

A Mixed Finite-Element Method for Quasilinear Degenerate Fourth-Order Elliptic Equations
M. M. Karchevskii, A. D. Lyashko, and M. R. Timerbaev 1050

A Parallel Iterative Method with a Factorized Preconditioning Matrix for Elliptic Equations
O. Yu. Milyukova 1058

Finite-Difference Approximations to the Transport Equation. II
A. A. Samarskii and P. N. Vabishchevich 1069

A Boundary Value Problem with a Nonlocal Condition for a System of Ordinary Differential Equations
M. P. Sapagovas 1078

Multiplicative Extraction of Singularities in FEM Solvers for Degenerate Elliptic Equations
M. R. Timerbaev 1086

The Accuracy of Finite-Difference Schemes for Parabolic Equations with a Discontinuous Solution
V. A. Tsurko 1094

Short Communications

The Stability of a Class of Nonautonomous Systems with Respect to a Nonlinear Approximation
A. Yu. Aleksandrov 1102

The Hilbert Inequality for a One-Parameter Family of Functions
V. D. Budaev 1106

The Fundamental Wave Problem for Cylindrical Dielectric Waveguides
E. M. Karchevskii 1109

The Eigenfunctions of a Sturm–Liouville Problem Related to Generalized Lyapunov Sines
A. I. Nazarov 1112

The Basis Property of a Perturbed Trigonometric System
A. A. Polosin 1114
