Vol. 40, No. 7, 2004
Simultaneous English language translation of the journal is available from MAIK "Nauka/Interperiodica" (Russia). Distributed worldwide by Springer Science+Business Media, Inc. *Differential Equations* ISSN 0012-2661.

Partial Differential Equations

The Moving Source Phantom in Geometric Optics of Inhomogeneous Media
A. V. Borovskikh 927

On Spectral Problems in Energy Spaces on Composite Manifolds with Singular Geometry of the Blocks: I
E. G. D'yakonov 934

A Nonlocal Problem with Integral Conditions for a Hyperbolic Equation
L. S. Pul'kina 947

Numerical Methods

How to Single out Solutions Bounded at a Singular Point for Some Differential-Algebraic Systems
A. A. Abramov, V. I. Ul'yanova, and L. F. Yukhno 954

On the Theory of Difference Schemes for Singularly Perturbed Equations
V. B. Andreev 959

A Study of Variable Step Iterative Methods for Variational Inequalities of the Second Kind
I. B. Badriev, O. A. Zadvornov, and A. D. Lyashko 971

Numerical Experiment in Hemodynamics
A. Ya. Bunicheva, S. I. Mukhin, N. V. Sosnin, and A. P. Favorskii 984

Difference Schemes for Nonstationary Vector Problems
P. N. Vabishchevich 1000

Error Estimates in the Galerkin Method for an Abstract Second-Order Evolution Equation with Nonsmooth Right-Hand Side
S. E. Zhelezovskii 1009

The Steepest Descent Method with an Adaptive Alternating-Triangular Preconditioner
A. N. Konovalov 1018

A Two-Sided Functional-Discrete Method for Second-Order Differential Equations with General Boundary Conditions
I. I. Lazurchak and V. L. Makarov 1029

A Criterion for Coefficient Stability
S. V. Lemeshevskii, P. P. Matus, and A. R. Naumovich 1043

An Algorithm for Solving a Phase Transition Problem in a Multicomponent System
O. S. Mazhorova, Yu. P. Popov, and O. V. Shcheritsa 1051

Two-Sided Approximation of Eigenvalues of Some Elliptic Operators
V. G. Prikazchikov 1060

Short Communications

Some Classes of Dirac Operators with Singular Potentials
R. Kh. Amirov and I. M. Guseinov 1066

Analytic Synthesis of Ordinary Linear Nonstationary Differential Equations Reducible in the Sense of Euler
A. V. Podchukaev and A. V. Izbalykov 1069
