Vol. 100, No. 1, 2020

Karyotype Characteristics and the Composition of Hemoglobins in *Chironomus* sp. *Ya3*
(Diptera, Chironomidae) from the Pechora Delta

V. V. Bolshakov and E. B. Fefilova

1

Malformations of Mouthpart Structures of *Chironomus riparius* Larvae (Diptera, Chironomidae)
under the Effect of Metal-Containing Nanoparticles

I. I. Tomilina and L. P. Grebenyuk

7

Invertebrates Damaging Foliage of Introduced Plants of the Family Rosaceae in the Dendrological
Collection of the Polar-Alpine Botanical Garden-Institute

N. S. Rak and S. V. Litvinova

19

Weevil Complexes (Coleoptera, Curculionoidea) Associated with *Lepidium crassifolium* Waldst. et Kit.
and *L. coronopifolium* Fisch. ex Ledeb. (Brassicaceae) in the Southern Steppe at the Boundary
between Europe and Asia

S. V. Dedyukhin and B. A. Korotyaev

28

Diversity of Fleas, Vectors of Plague Pathogens: the Flea *Oropsylla silantiewi* (Wagner, 1898)
(Siphonaptera, Ceratophyllidae)

S. G. Medvedev and D. B. Verzhutsky

45

Fauna of Blood-Sucking Insects of the Gnus Complex in the Northwestern Region of Russia.
III. Mosquitoes (Culicidae)

A. V. Khalin and S. V. Aibulatov

58

Fauna of Horseflies (Diptera, Tabanidae) of the South of the Middle Russian Forest-Steppe
and Adjoining Steppe Territories

Yu. A. Prisniy

83

First Record of the Genus *Symplanella* Fennah, 1987 (Hemiptera, Auchenorrhyncha, Fulgoroidea:
Caliscelidae) from Vietnam, with Description of a New Species from Yok Don National Park

V. M. Gnezdilov

91

A New Species of the Afrotropical Ground-Beetle Genus *Kenyacus* (Coleoptera, Carabidae:
Harpalini) from the Rwenzori Mountains, Uganda

B. M. Kataev

95

New and Little-Known Species of the Weevil Genus *Otiorhynchus* (Coleoptera, Curculionidae) from Iran

V. Yu. Savitsky

101

A New Species of the Genus *Eumerus* Meigen, 1822 (Diptera, Syrphidae) from the High Mountains of Tajikistan

A. V. Barkalov

117

Comparative Analysis of Sexual Behavior in Hard Ticks (Ixodidae)

S. A. Leonovich

122

Short Communication

On the Distribution of the Ladybird *Parexochomus semenovi* (Wse.) (Coleoptera, Coccinellidae)

B. A. Korotyaev
