Vol. 79, No. 7, 1999

Simultaneous English language translation of the journal is available from МАИК "Наука/Interperiodica" (Russia).
Entomological Review ISSN 0013-8738

New Species of the Buprestid Genus *Endelus* Deyrolle (Coleoptera, Buprestidae)
from Southeastern Asia

M. Yu. Kalashian p. 749 [abstract](#)

On the Number of Photoperiodic Clocks Participating in the Control of the Seasonal Polyphenism
in the Aphid *Megoura viciae* Buckt. (Homoptera, Aphididae)

V. A. Zaslavskii and T. S. Kats p. 755 [abstract](#)

Thermoperiodic Induction of Diapause in Two Green Lacewing Species *Chrysopa pallens* Wesm.
and *Chrysopa perla* L. (Neuroptera: Chrysopidae)

T. A. Volkovich, I. V. Sokolova, and G. Nasier p. 761 [abstract](#)

Ecological Review of the Lepidoptera of the Lower Volga Area: II

V. V. Anikin p. 770 [abstract](#)

Revision of Shield Bugs of the Genus *Agatharchus* Stål (Heteroptera, Pentatomidae)

Ye. N. Belousova p. 778 [abstract](#)

New Turanian Species of the Narrow-Winged Pyraloid Moths (Lepidoptera, Phycitidae)
Associated with Chenopodiaceae

M. I. Falkovitsh p. 796 [abstract](#)

Taxonomic Status and Subspecies Structure of *Cicindela altaica* (Coleoptera, Carabidae)

A. V. Matalin p. 809 [abstract](#)

Structure of Saprophagous Invertebrate Community on a Steppe Catena
in the Trans-Volga Region

I. I. Lyubechanskii and I. E. Smelyanskii p. 821 [abstract](#)

Gall Midges (Diptera, Cecidomyiidae) Developing on Wormwoods (*Artemisia* spp.): Taxa of the Faunas
of Kazakhstan and Turkmenistan: 4. Species of the Genus *Dracunculomyia*
from *Artemisia marschalliana* and *A. scoparia*

Z. A. Fedotova p. 830 [abstract](#)

Spatial and Typological Structure of Butterfly (Lepidoptera, Rhopalocera) Population
in Southeastern Altai

A. V. Bondarenko, Yu. P. Malkov, P. Yu. Malkov, and N. P. Malkov p. 843 [abstract](#)

The Opiliones Guild: Structure and Trophic Relations

T. K. Sergeeva p. 851 [abstract](#)

Gall Midges (Diptera, Cecidomyiidae) Developing on Wormwoods (*Artemisia*): Taxa of the Faunas
of Kazakhstan and Turkmenistan: 5. Genus *Dracunculomyia*. Complex of Species
from *Artemisia dracunculus*

Z. A. Fedotova p. 857 [abstract](#)

Dynamics of the Saprobiont Complex in Different Fractions of Forest Litterfall

E. S. Shvarts, L. V. Popova, and N. M. Chernova **p. 875** [abstract](#)

Morphology and Karyotype of *Glyptotendipes* sp. (Diptera, Chironomidae) with $2n = 4$

S. I. Belyanina, N. A. Durnova, and N. A. Shobanov **p. 885** [abstract](#)

Short Communications

Ultrastructure of Egg Exochorion in the Family Psilidae (Diptera)

S. P. Gaponov **p. 892** [abstract](#)

Chromosomes of *Callaspidia defonscolombi* (Hymenoptera, Figitidae)

V. E. Gokhman **p. 896** [abstract](#)
