|                                                                                                                                                                                                                                                                        |      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| The Application of Mycelial Wastes from Microbiological Production of Antibacterial Antibiotics as Lubricating Oil Additives<br><i>V. V. Belakhov and A. V. Garabadzhiu</i>                                                                                            | 2929 |
| Toxicity Testing of Chemicals without Use of Animals<br><i>S. A. Ostroumov</i>                                                                                                                                                                                         | 2933 |
| Biogenic Elements and Organic Matter in the Sheksna Reach of the Rybinsk Reservoir<br><i>I. E. Stepanova</i>                                                                                                                                                           | 2942 |
| Sensory Monitoring of the Native State of Natural Waters<br><i>T. A. Kuchmenko, E. V. Drozdova, A. A. Shuba, and E. I. Samoilova</i>                                                                                                                                   | 2951 |
| Heavy Metal Content of Stormwater Runoff in St. Petersburg<br><i>G. T. Frumin and A. V. Dikinis</i>                                                                                                                                                                    | 2961 |
| Metals in Precipitation and Lake Waters in the North-West of Russia<br><i>A. A. Vinogradova and E. I. Kotova</i>                                                                                                                                                       | 2965 |
| A New Non-Chloride Method of Synthesis of Antibacterial Antibiotic Fosfomycin Based on the Principles of Green Chemistry<br><i>V. V. Belakhov and A. V. Garabadzhiu</i>                                                                                                | 2974 |
| Removal of Aluminum by Aquatic Plants <i>Ceratophyllum Demersum</i> and <i>Chara Fragilis</i> from Water of Experimental Ecosystems<br><i>V. A. Poklonov</i>                                                                                                           | 2978 |
| Assessment of the Environmental Hazard Class to Waste Accumulated over the Past Century by a Former Mining Enterprise at the Far East Federal District<br><i>L. T. Krupskaya, A. A. Cherentsova, L. P. Mayorova, and D. A. Golubev</i>                                 | 2983 |
| Ecological and Hygienic Assessment of the Consequences of the Pollution with Persistent Organic Compounds of an Industrial Town (by the Example of Usol'e-Sibirskoe): I. Atmospheric Air, Snow, and Soil<br><i>E. A. Mamontova, A. A. Mamontov, and E. N. Tarasova</i> | 2987 |
| Modeling the Compositions of Slime Waters in the Tailing Dumps of the Central and Krasnorechensk Concentrating Mills at the Dal'negorsk District in the Positive Temperature Range<br><i>V. P. Zvereva, A. I. Lysenko, and A. M. Kostina</i>                           | 2997 |
| The Application of Aryl Substituted Derivatives of Xylose as Environmentally Friendly Multipurpose Pesticides<br><i>V. V. Belakhov and A. V. Garabadzhiu</i>                                                                                                           | 3002 |
| Self-Propagating High-Temperature Synthesis as a Promising Method for the Utilization of Technical Lignins<br><i>A. P. Voznyakovskii, D. I. Savkin, A. V. Kalinin, I. V. Shugalei, S. M. Krutov, and A. S. Mazur</i>                                                   | 3008 |
| Using an Comprehensive Method for Evaluation of Environment State in a Zone of Influence of a Tailing Dam<br><i>L. T. Krupskaya, V. P. Zvereva, O. A. Kirienko, E. L. Imranova, and N. G. Volobueva</i>                                                                | 3012 |

|                                                                                                                                                                                   |      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Determination of Rate of Inorganic Phosphorus Consumption in Natural Waters<br>Using Alkaline Phosphatase Inhibitors<br><i>A. V. Ryzhakov and I. A. Stepanova</i>                 | 3015 |
| Acidity of Atmospheric Precipitates in St. Petersburg<br><i>G. T. Frumin, A. V. Dikinis<sup>†</sup>, and E. G. Alekseeva</i>                                                      | 3018 |
| Enantioselective Synthesis of (S)-1-Phenylethanol, a Precursor to Low-Molecular-Weight Bioregulators<br><i>A. R. Chanysheva, G. V. Yunusova, T. E. Vorobyova, and V. V. Zorin</i> | 3021 |
