Contents

Vol. 89, No. 13, 2019

Estimation of the Soil Toxicity Level in the Areas of Anthropogenic Mineral Deposits by Means of Quantitative Parameters and Biotesting
V. N. Makarova and S. B. Yarusova 2741

Prediction of Metal Ion Toxicity Using Ion Characteristics
G. T. Frumin and N. L. Bolotova 2746

Comparative Study of Plant Drought with Account Taken of Biochemical Mobility of Heavy Metals
A. R. Sukiasyan 2751

Prospects for Development of an Eco-Friendly Nanocarbon Matrix for Combined Immobilized Microbial Preparations
A. P. Voznyakovskii, I. V. Shugalei, A. A. Voznyakovskii, I. V. Tselinskii, and L. T. Krupskaya 2756

Effect of Plasma Surface Modification of Mixed Leaf Litter on the Mechanism of Oil Film Removal from Water Bodies
A. A. Alekseeva and S. V. Stepanova 2763

Processing Hard Coal Mining Wastes of the Luhansk Region as Man-Made Metal Deposits
E. I. Verekh-Belousova 2769

Levoristatin, Non-Medical Application Antibiotic: Preparation, Physicochemical Properties, Structure, and Directions of Practical Usage (Review)
V. V. Belakhov, I. V. Boikova, E. P. Yakovleva, and V. A. Kolodyaznaya 2774

Effect of Modification on the Toxicity of Sorption Materials Intended for Wastewater Treatment
E. A. Tatarintseva, I. V. Dolbnya, E. A. Bukharova, L. N. Ol'shanskaya, and E. N. Lazareva 2786

Persistent Organic Pollutants in Baikal Seal (*Pusa sibirica*) Blubber
A. A. Mamontov, E. A. Mamontova, and E. N. Tarasova 2791

Hydrochemical Regime of the Kiliya Delta of the Danube River in Retrospective and Modern Conditions: I. Main Indicators of Water Chemical Composition
P. N. Linnik, V. A. Zhezherya, and R. P. Linnik 2798

Impact of Technogenic Wastewaters of Kavalerovskii and Dalnegorskii Mining Districts on the Hydrosphere of Primorsky Krai
V. P. Zvereva 2808

On the Functional Biospheric Role of Living and Biogenic Matter: The Fourth Biogeochemical Principle
S. A. Ostroumov 2818

The Content of High-Molecular Polycyclic Aromatic Hydrocarbons in Urban Air During FIFA World Cup 2018
I. S. Khalikov and A. O. Korunov 2821

Study of the Plant Growth-Regulating Activity of Non-Medical Application Antibiotics with the Aim of Finding Eco-Friendly Plant Growth Regulators
I. V. Boikova, V. A. Kolodyaznaya, and V. V. Belakhov 2827

Toxicity of Metal Cations for *Daphnia*
G. T. Frumin and N. A. Malysheva 2835

Suppression of Cyanobacterial Blooms by Zooplankton: Experiments in Natural Water Bodies with the Use of Flow-Through Ecosystems
T. N. Gerasimova, P. I. Pogozhev, and A. P. Sadchikov 2840

Biosorption of Toxic Elements from Multicomponent Solutions by Microfungal Biomass
L. M. Pavlova, V. I. Radomskaya, L. P. Shumilova, T. V. Kezina, and V. V. Ivanov 2845

Additions to Some Concepts Presented in V.I. Vernadsky's Works on the Biosphere
S. A. Ostroumov 2858

Epilimnion, Metalimnion, and Hypolimnion of a Mesotrophic Aquatic Ecosystem: Functional Role of the Vertical Structure of the Reservoir Ecosystem in Terms of Hydrochemical and Biological Parameters
A. P. Sadchikov and S. A. Ostroumov 2860

Hydrochemical Regime of the Kiliya Delta of the Danube River in Retrospective and Modern Conditions: II. Metal Content and Speciation
P. N. Linnik, V. A. Zhezherya, and R. P. Linnik 2865
