Vol. 21, No. 2, 2012

A simultaneous English language translation of this journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Journal of Engineering Thermophysics* ISSN 1810-2328.

| | |
|---|-----|
| Numerical Heat Transfer Analysis in Turbulent Channel Flow over a Side-by-Side Triangular Prism Pair <i>S. Eiamsa-ard, S. Sripattanapipat, and P. Promvongse</i> | 95 |
| Characteristics of Rosseland and P-1 Approximations in Modeling Nonstationary Conditions of Convection-Radiation Heat Transfer in an Enclosure with a Local Energy Source <i>S. G. Martyushev and M. A. Sheremet</i> | 111 |
| Heat and Mass Transfer on MFD Flow through Porous Media over an Accelerating Surface in the Presence of Suction and Blowing <i>J. P. Panda, N. Dash, and G. C. Dash</i> | 119 |
| Investigation of Products of Thermal Methane Conversion in Hydrocarbon Mixtures by Mass Spectrometry <i>D. V. Smovzh, O. A. Nerushev, M. P. Koverznev, A. E. Belikov[†], S. A. Novopashin, S. Z. Sakhapov, A. O. Zamchii, and A. V. Zaikovskii</i> | 131 |
| Experimental Investigation of Adiabatic Evaporation Waves in Superheated Refrigerants <i>V. V. Kuznetsov, I. A. Kozulin, and O. V. Vitovsky</i> | 136 |
| Apparatus for Studying Heat Transfer in Nanofluids under High-Power Heating <i>S. B. Rutin and P. V. Skripov</i> | 144 |
