On Numerical Modeling of the Dynamics of Turbulent
Wake behind a Towed Body in Linearly Stratified Medium

*G. G. Chernykh, O. A. Druzhinin, A. V. Fomina,
and N. P. Moshkin*

155

Quasi-One-Dimensional Nonstationary Temperature
Field of a Turbulent Flow in a Well

A. I. Filippov, O. V. Akhmetova, and A. S. Rodionov

167

Heat and Mass Transfer of MHD Convective Boundary Layer Flow
Past a Stretching Porous Wall Embedded in a Porous Medium

S. N. Sahoo and G. C. Dash

181

Quantum Mechanics Applied to the Dynamic Assessment
of a Cluster of Water Particles in Sprinkler Irrigation

D. De Wrachien and G. Lorenzini

193

Dimensionless Heat Transfer Correlations for Estimating
Edge Heat Loss in a Flat Plate Absorber

P. N. Nwosu

198
