Monetary Economy of Russia <i>V. E. Nakoryakov</i>	447
Experimental Characterization of Novel SiC Foam Corrugated Structured Packing with Varied Pore Size and Corrugation Angle <i>X. Li, Q. Shi, H. Li, Y. Yao, A. N. Pavlenko, and X. Gao</i>	452
Features of Low-Temperature Oxidation of Isobutane in Water Vapor and Carbon Dioxide with Increased Density of Reagents <i>A. A. Vostrikov, O. N. Fedyaeva, A. V. Shishkin, D. O. Artamonov, and M. Ya. Sokol</i>	466
Modeling of Classical Turbulence by Quantized Vortices <i>S. K. Nemirovskii</i>	476
Geometric Optimization of T-Shaped Constructs Coupled with a Heat Generating Basement: A Numerical Approach Motivated by Bejan's Constructal Theory <i>G. Lorenzini, C. Biserni, F. L. Dalpiaz, T. M. Fagundes, and L. A. O. Rocha</i>	485
Thermal-Hydraulic Characteristics of Nanofluid Flow in Corrugated Ducts <i>R. Hassanzadeh and N. Tokgoz</i>	498
Effect of Relative Camber on the Aerodynamic Performance Improvement of Asymmetrical Blunt Trailing-Edge Modification <i>X. Zhang, G. G. Wang, M. J. Zhang, and W. Li</i>	514
Formation and Dispersion of CO ₂ after Combustion in Closed Area <i>T. Korinek and K. Frana</i>	532
Turbulent Periodic Flow and Heat Transfer in a Rectangular Channel with Detached V-Baffles <i>Y. Kaewkohkiat, P. Promvongse, and S. Eiamsa-ard</i>	542
Hydromagnetic Flow of a Variable Viscosity Nanofluid in a Rotating Permeable Channel with Hall Effects <i>F. Mabood, W. A. Khan, and O. D. Makinde</i>	553
Experimental Evaluation of Friction Factor and Heat Transfer Enhancement of Twisted Tape Inserts Using TiO ₂ –Water Nanofluids <i>D. Magesh Babu, P. K. Nagarajan, B. Madhu, and S. Ravishankar</i>	567
Eulerian–Eulerian Simulation of Non-Uniform Magnetic Field Effects on the Ferrofluid Nucleate Pool Boiling <i>R. Mortezaazadeh, H. Aminfar, and M. Mohammadpourfard</i>	580
