Geomechanics

New Approach to Monitoring Induced Earthquakes <i>V. V. Adushkin, S. B. Kishkina, and G. G. Kocharyan</i>	1
Modeling Deformation Processes in Self-Stressed Rock Specimens <i>S. V. Lavrikov and A. F. Revuzhenko</i>	12
Strain Gradient Model of Zonal Disintegration of Rock Mass near Deep-Level Tunnels <i>C. Z. Qi, K. R. Li, J. P. Bai, A. I. Chanyshev, and P. Liu</i>	21
Geomechanical Monitoring of Open-Pit Bottom Reserves in Mir Mine, ALROSA: Results <i>V. D. Baryshnikov, A. S. Fedyanin, E. K. Pul', and D. V. Baryshnikov</i>	34
Geomechanical State of Production Faces in Polysaevskaya Coal Mine in Kuzbass <i>M. Reuter, M. Krach, U. Kießling, and Ju. Veksler</i>	43
Estimation of Stress State in Rocks and Geomaterials <i>V. V. Seredin, A. S. Khrulev, and M. V. Pushkareva</i>	49
Proposal of Predicting Formation of Sinkholes with an Exemplary Application <i>P. Strzalkowski</i>	53

Rock Failure

Pendulum Waves on the Surface of Block Rock Mass under Dynamic Impact <i>N. I. Aleksandrova</i>	59
Geodynamic and Seismic Events under Rockburst-Hazardous Block Caving in Gornaya Shoria <i>A. A. Eremenko, I. V. Mashukov, and V. A. Eremenko</i>	65

Mineral Mining Technology

Improving Evaluation Methods for Production Capacity and Life of Open Pit Diamond Mines <i>A. N. Akishev, I. V. Zyryanov, S. V. Kornilov, and V. D. Kantemirov</i>	71
Technology of Backfill Preparation Based on Cement-and-Slag Binder in Orlov Mine <i>L. A. Krupnik, Yu. N. Shaposhnik, S. N. Shaposhnik, G. T. Nurshaiykova, and Z. K. Tungushbaeva</i>	77
Robotic Geotechnologies as Way of Improving Efficiency and Ecologization of Mineral Resource Management <i>M. V. Ryl'nikova, D. Ya. Vladimirov, I. A. Pytalev, and T. M. Popova</i>	84
Structural Peculiarities of Coal Mine Waste Piles in Kuzbass <i>S. A. Prokopenko, V. S. Ludzish, Yu. V. Lesin, M. A. Tyulenev, and A. V. Sushko</i>	92
Experience in the Adoption of Room & Pillar Mining Method in the Company OKD, a.s., Czech Republic <i>V. Hudeček, J. Šancer, V. Zubiček, and J. Golasowski</i>	99

Science of Mining Machines

Evaluation of Layout of Air Drill Hammer with Smooth Adjustment of Impact Impulse Frequency

I. V. Tishchenko, V. V. Chervov, and B. N. Smolyanitsky 109

Pulsed Linear Solenoid Actuator for Deep-Well Vibration Source

B. F. Simonov, V. Yu. Neiman, and A. S. Shabanov 117

Mineral Dressing

Surface Modification of Rock-Forming Minerals of Diamond-Bearing Kimberlites under Interaction with Wastewater and Electrochemically Treated Water

V. A. Chanturia, M. V. Ryazantseva, G. P. Dvoichenkova, V. G. Minenko, and E. V. Koporulina 126

Numeric Evaluation of Kinematic and Dynamic Characteristics of Mineral Treatment in Disintegrator

F. Kh. Urakaev and T. S. Yusupov 133

Concentrating Nickel from Leaching Solutions for Oxidized Nickel Ore Based on Precipitation of Hydrates

A. M. Klyushnikov 141

Ferruginous Quartzites from Kimkan Deposit and Their Processing

T. N. Gzogyan and S. R. Gzogyan 147

Prospects for Re-Processing of Carbonate–Fluorite Ore Mill Tailings at Yaroslavsky Mining Company

L. A. Kienko, O. V. Voronova, and S. A. Kondrat'ev 155

Identifying Rare Earth Elements and Thorium and Uranium in Iron Oxide–Apatite Deposit of Gazestan Bafgh, Southeast of Iran

A. A. Dehghanzadeh Bafghi, A. H. Kohsary, F. Mohammad Torab, and H. Mojtahedzadeh 161

Mining Ecology

Efficiency of Dust Suppression with Aerosol Guns–Fogging Machines with Air-and-Fluid Jets

A. V. Ivanov and A. V. Strizhenok 176

Geocological Challenges of Mined-Put Open Pit Area Use in the Ural

L. S. Rybnikova, P. A. Rybnikov, and I. V. Tarasova 181

Mining Thermophysics

Electrical Prospecting to Detect Places of Spontaneous Heating in Olzherasskaya-Novaya Coal Mine: Case Study

Lee Khi Un, S. V. Cherdantsev, V. B. Popov, P. A. Shlapakov, and A. Yu. Erastov 191

New Methods and Instruments in Mining

Size, Location and Time of Initiation of Primary Defects in Rocks under Impact Destruction

I. P. Shcherbakov, V. S. Kuksenkov, and A. E. Chmel' 197
