Geomechanics

Theoretical Fundamentals to Describe Interaction of Geomechanical and Physicochemical Processes in Coal Seams

V. N. Oparin 201

Alteration of Fault Deformation Mode under Fluid Injection

G. G. Kocharyan, A. A. Ostapchuk, and V. S. Martynov 216

Application of Acoustic Measurement Data to Characterize Initiation and Development of Disintegration Focus in a Rock Mass

I. Yu. Rasskazov, S. V. Tsirel', A. O. Rozanov, A. A. Tereshkin, and A. V. Gladys' 224

Investigation of Cyclic Disturbances in Granular Medium

A. P. Bobryakov 232

Modeling Fiber Reinforced Polymer (FRP) Coating in Retrofitting Concrete Walls against Explosive Loads

Hadi Haeri, Mohsen Farazmand, Vahab Sarfarazi, and Zheming Zhu 239

Rock Failure

Improvement of Rock Fragmentation by Distributed Charge Blasting

A. P. Andrievsky and B. A. Akhpashev 253

Laboratory Selective Disintegration of Kimberlite

Yu. M. Grigor'ev, V. P. Mironov, and P. P. Tarasov 259

Science of Mining Machines

A New Approach to Voltage Regulation in Self-Sustained Power Supply Systems in Mines

B. F. Simonov, S. A. Kharitonov, E. Ya. Bukina, D. V. Makarov, and A. S. Kharitonov 265

Validation of Horizontal Auger Drilling String Assembly Design Based on Dry Bearings

L. E. Mamet'ev, O. V. Lyubimov, and Yu. V. Drozdenko 275

Modeling Method for Measuring the Admittance of Insulation in a Network with an Isolated Neutral Voltage up to 1000 V in Mines Using Matlab/Simulink

B. B. Utegulov, A. B. Utegulov, and A. B. Uakhitova 282

Mineral Mining Technology

Experience of Destressing Slotting to Prevent Gas-Dynamic Events in Mechanized Camallite Mining

S. Yu. Nesterova 291

Methodological Basis for Calculating Parameters of Direct Dumping Flowsheets in Open Pit Mining of Gently Dipping Coal Beds

V. I. Cheskidov, A. S. Bobyl'sky, and A. V. Reznik 299

Technology of Dimension Stone Cutting

M. M. Ismanov 305

Mine Aerogas dynamics

Nonlinear Relationships between Coalbed Methane Release, Natural Methane Content and Kinematic Parameters of Cutting Picks Of Shearers

A. A. Ordin and A. M. Timoshenko

311

Mineral Dressing

Combination Processes of Diamond Recovery from Metasomatically Altered Kimberlite Rocks

*V. A. Chanturia, G. P. Dvoichenkova, I. Zh. Bunin, V. G. Minenko,
E. G. Kovalenko, and Yu. A. Podkamenny*

317

Enhancing Multipurpose Use of Cow-Parsnip in Processing of Gold-Bearing Sulfides

T. A. Ivanova, I. G. Zimbovsky, and E. V. Koporulina

327

Prospects of Radiation-Thermal Treatment of Wastes of Novosibirsk Tin Works

S. A. Kondrat'ev, V. I. Rostovtsev, and I. I. Baksheeva

334

Effect of Structural Changes on Energy Content and Reactive Capacity of Wolframite after Mechanical Activation of Standard Wolframite Concentrate

E. V. Bogatyreva and A. G. Ermilov

342

Gold and Copper Recovery from Flotation Concentrates of Tarror Deposit by Autoclave Leaching

Sh. Bobozoda, I. R. Boboev, and L. S. Strizhko

352

Enhanced Gold Recovery Based on Joint Ore and Waste Processing

S. I. Evdokimov and V. S. Evdokimov

358

Mining Ecology

Mining Pollution Control Using Biogrouting

Ramin Doostmohammadi, Maryam Olfati, and Forouzan Ghasemian Roodsari

367

Enhancement of Mechanical Stability of Waste Dump Slope through Establishing Vegetation in a Surface Iron Ore Mine

Vibhash Ranjan, Phalguni Sen, Dheeraj Kumar, and Arjun Sarsawat

377

Geoinformation Science

State of the Undermined Karaganda Coal Basin Area by Satellite Monitoring Data

D. V. Mozer, A. S. Tuyakbai, And Zh. Z. Toleubekova

389

Monitoring Systems In Mining

Validation of the Accuracy Of Surveying Control over Condition of Earth Dams at Liquid Waste Ponds

S. P. Bakhaeva and T. V. Mikhailova

396

New Methods and Instruments in Mining

Information Entropy as an Identifier in Rock Mass Structure Determination Using Low-Frequency Radars

V. V. Nabatov

407
