Distributed worldwide by Springer. *Journal of Mining Science* ISSN 1062-7391

Geomechanics

Phenomenological Model of Rock Deformation around Mine Workings

M. V. Kurlenya and V. E. Mirenkov 181

Electromagnetic Emission of Rocks after Large-Scale Blasts

A. A. Bepal'ko, L. V. Yavorovich, A. A. Eremenko, and V. A. Shtirts 187

Rock Failure

Features of Uniaxial Compression Failure of Brittle Rock Samples with Regard to Grain Characteristics

V. P. Efimov 194

Effect of Cryogenic Pre-Treatment on Breakage Characteristics of Rocks

R. Bisai, S. Goel, A. Hatwal, S. K. Pal, A. Majumder, and T. K. Nandi 202

Science of Mining Machines

Improvement of Down-the-Hole Air Hammer Efficiency by Optimizing Shapes of Colliding Parts

I. A. Zhukov, B. N. Smolyanitsky, and V. V. Timonin 212

Calculation of Life of Functional Parts in the Structure of Mining Machines

O. P. Panfilova, V. S. Velikanov, I. G. Usov, E. Yu. Matsko, and I. M. Kutlubaev 218

Mineral Mining Technology

Substantiation of Protective Cushion Thickness in Mining under Open Pit Bottom with the Caving Methods at Udachnaya Pipe

I. V. Sokolov, A. A. Smirnov, Yu. G. Antipin, I. V. Nikitin, and M. V. Tishkov 226

Development of Technology for Filling Voids between Metal Frame Support and Adjacent Rock Mass by Foam Materials

Yu. N. Shaposhnik, A. A. Neverov, S. A. Neverov, A. I. Konurin, and D. A. Shokarev 237

Experimental Research of Physical Processes in Selective Extraction of Ores and Rocks in Flat Lode Mining

K. N. Trubetskoy, Yu. P. Galchenko, and A. S. Shuklin 248

Analysis of a Green Transport Plant for Deep Sea Mining Systems

W. Ma, G. Lodewijks, and D. Schott 254

Penetration Rate and Specific Energy Prediction of Rotary-Percussive Drills Using Drill Cuttings and Engineering Properties of Selected Rock Units

M. Z. Abu Bakar, I. A. Butt, and Y. Majeed 270

Mineral Dressing

Influence Exerted by Ultrasound Processing on Efficiency of Leaching, Structural, Chemical, and Morphological Properties of Mineral Components in Eudialyte Concentrate

*V. A. Chanturia, V. G. Minenko, A. L. Samusev, M. V. Ryazantseva,
E. L. Chanturia, and E. V. Koporulina*

285

Mathematical Modeling of Mineralized Industrial Wastewater Treatment by Pressure Flotation

N. L. Medyanik, I. Yu. Shevelin, and S. N. Kakushkin

292

Improvement of Oxidizing Roasting of Molybdenite Concentrate by Addition of Magnesite

D. P. Khomoksonova, E. S. Kashkak, and I. G. Antropova

300

Efficient Physicochemical Treatment Technology for Nepheline Concentrates

V. S. Rimkevich, A. P. Sorokin, A. A. Pushkin, and I. V. Girenko

306

Mining Ecology and Exploitation of the Earth's Bowels

Recovery of Tundra Ecosystem after Closure of the Valkumei Mine in Chukotka

G. V. Kalabin, V. I. Gornyi, T. A. Davidan, S. G. Kritsuk, and A. A. Tronin

315

Geocological Assessment of the Malyi Khingan Ridge Area Using Land Surface Remote Sensing Data

V. I. Usikov and L. N. Lipina

323

Selection of Binding Agents for Dust Prevention at Tailings Ponds at Apatite–Nepheline Ore Processing Plants

*V. A. Masloboev, A. V. Svetlov, O. T. Konina, G. V. Mitrofanova, A. V. Turtanov,
and D. V. Makarov*

329

Mining Thermophysics

Combustion of Fine Dispersed Dust–Gas–Air Mixtures in Underground Workings

*S. V. Cherdantsev, Li Hi Un, Yu. M. Filatov, D. V. Botvenko, P. A. Shlapakov,
and V. V. Kolykhalov*

339

New Methods and Instruments in Mining

Research of Operating Mode and Geometric Parameters of Combination Unit Cutter in Initiating Slotting

P. V. Sazhin

347

Parameter Optimization of the Radioisotope Gamma Albedo Method for Controlling Quality of Variable Composition Coals

Yu. N. Pak and D. Yu. Pak

352
