Vol. 52, No. 3, 2016

A simultaneous English language translation of this journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Journal of Mining Science* ISSN 1062-7391

Geomechanics

- Procedure and Evidence of Seismic Research into Physical Properties of Cohesive Soils
*M. V. Kurlenya, A. S. Serdyukov, G. S. Chernyshov, A. V. Yablokov,
P. A. Dergach, and A. A. Duchkov* 417
- Evolution of Stresses and Permeability of Fractured-and-Porous Rock Mass
around a Production Well
L. A. Nazarova and L. A. Nazarov 424
- Method of Stress Calculation in Rock Mass around Underground Openings Considering Unit
Weight
V. E. Mirenkov 432
- Geomechanical Evaluation of Roof-and-Pillar Parameters in Transition
to Underground Mining
*A. B. Makarov, I. Yu. Rasskazov, B. G. Saksin, I. S. Livinsky,
and M. I. Potapchuk* 438
- Deformation Criterion of Salt Rock Failure
V. N. Aptukov 448
- Calculating Stability of Overburden Dumps on Weak Bases
S. P. Bakhaeva, V. A. Gogolin, and I. A. Ermakova 454
- Twin Tunnel Behavior under Static and Dynamic Loads of Shiraz Metro, Iran
R. Shirinabadi and E. Moosavi 461
- Investigation of Swelling Pressure of Weak Rocks in Vicinity of Support Systems
R. Doostmohammadi 473
-

Rock Failure

- A New Index of Rock-Breaking Tool Efficiency
B. L. Gerike, V. I. Klishin, and P. B. Gerike 481
- Multiple Directional Hydraulic Fracturing with Chemically Active Mixtures
I. V. Kolykhalov and A. V. Patutin 487
- Selection of Electrohydraulic Grinding Parameters for Quartz Ore
*S. R. Korzhenevsky, V. A. Bessonova, A. A. Komarsky, V. A. Motovilov,
and A. S. Chepusov* 493
-

Science of Mining Machines

- Estimate of Blow Frequency Range for an Air Drill Hammer with a Ring-Shaped Elastic
Valve in the Backstroke Exhaust Line
V. V. Chervov, B. N. Smolyanitsky, and I. V. Tishchenko 497
- Calculating Bending Vibrations of Main Axial Mine Fan Rotor Shaft
A. M. Krasnyuk and P. V. Kosykh 502
- Hybrid Unit for Directional Hydraulic Fracturing
Yu. M. Lekontsev, A. V. Patutin, P. V. Sazhin, and O. A. Temiryayeva 511
- Designs of Mining Shovels with Digging Equipment of Nonclassical Structural Layout
S. V. Doronin and Yu. I. Filippova 516
-

Mineral Mining Technology

Coalbed Methane Release as a Function of Coal Breakup

A. A. Ordin and A. M. Timoshenko 524

Experimental Studies into Technology of Generation of Pay Zones in Gold Mine Waste

V. S. Alekseev and R. S. Seryi 530

Mineral Dressing

Classification of Mineral Species on the Surface of natural Diamond Crystals

V. A. Chanturia, G. P. Dvoichenkova, and O. E. Koval'chuk 535

Collectability of Physically Adsorbed Xanthate Ion–Dixanthogen Associates

S. A. Kondrat'ev, E. A. Burdakova, and I. A. Konovalov 541

Adsorption of Tannin-Bearing Organic Reagents on Stibnite, Arsenopyrite and Chalcopyrite in Complex Gold Ore Flotation

T. N. Matveeva, N. K. Gromova, and L. B. Lantsova 551

Improvement of Dissociation of Rebellious Minerals

T. S. Yusupov 559

Method to Make Nests of Useful Components by Way of Accumulation

A. G. Mikhailov, M. Yu. Kharitonova, I. I. Vashlaev, and M. L. Sviridova 565

A Statistical Approach to the Experimental of the Leaching of Sulfide Copper from the Ores Using Lixiviant Sulfuric Acid

D. E. Bar and D. Barkat 569

Mining Thermophysics

Initiation of Underground Fire Sources

V. N. Oparin, T. A. Kiryaeva, V. Yu. Gavrilov, Yu. Yu. Tanashev, and V. A. Bolotov 576

Temperature Field Analysis in Salty Rocks at Shaft Mouth under Operation of a Freezing System

Yu. A. Khokholov, A. S. Kurilko, and D. E. Solov'ev 593

Modeling Temperature Field Dynamics in Post-Blasting Open Pit Mines in Permafrost

M. V. Kaimonov and S. V. Panishev 601

New Methods and Instruments in Mining

Down-the-Hole Devices for Measuring Recovery and Coal Permeability

S. V. Serdyukov, T. V. Shilova, and L. A. Rybalkin 608
