Vol. 53, No. 3, 2017

A simultaneous English language translation of this journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Journal of Mining Science* ISSN 1062-7391

Geomechanics

- Calculation of Rock Mass Deformation around Deep-Buried Underground Openings,
Considering Weight of the Overlying Strata
M. V. Kurlenya, V. E. Mirenkov, and A. V. Savchenko 417
- Modeling Deformation and Failure of Anisotropic Rocks nearby a Horizontal Well
V. I. Karev, Yu. F. Kovalenko, and K. B. Ustinov 425
- Assessment of Rheological Properties of Bazhenov Formation by Thermobaric Test Data
L. A. Nazarova, L. A. Nazarov, and N. A. Golikov 434
- A Method to Describe Hierarchical Block Structure of Rock Mass, Considering
Nonuniformity of Mechanical Properties
A. I. Chanyshv and O. E. Belousova 441
- New-Way Determination of the Degree of Loading of a Pillar
V. N. Aptukov and I. B. Vaulina 449
- Field Evaluation of Soil Liquefaction and Its Confrontation in Fine-Grained Sandy
Soils (Case Study: South of Hormozgan Province)
*Hadi Haeri, Vahab Sarfarazi, Alireza Bagher Shemirani, Hoshang Poyan
Gohar, and Hamid Reza Nejati* 457
-

Rock Failure

- Effect of Energy Deposition on High-Voltage Electropulse Drilling Efficiency in Granite
*V. F. Vazhov, M. Yu. Zhurkov, S. Yu. Datskevich, V. M. Muratov,
and A. Rødland* 469
- Producibility of Abrasive Garnet from Garnet–Mica Schist by Electropulse Disintegration
A. S. Potokin, D. G. Stepenshchikov, A. F. Usov, and Yu. L. Voytekhovsky 473
-

Science of Mining Machines

- Improvement of Pipe Pushing Method
B. B. Danilov, A. S. Kondratenko, B. N. Smolyanitsky, and A. S. Smolentsev 478
- Justification of Damping Cutter Design for Making Parts for High-Pressure Drilling Unit
Cylinders
E. A. Kudryashov, E. V. Pavlov, and I. M. Smirnov 484
-

Mineral Mining Technology

- Promising Mining Technologies for Gold Placers in Transbaikalia
*V. N. Oparin, A. G. Sekisov, A. I. Trubachev, B. N. Smolyanitsky,
V. S. Salikhov, and N. V. Zykov* 489
- Optimizing Cupriferos Ore Output at Oktyabrsky Copper–Nickel Deposit, Considering Lag
Factor
A. A. Ordin and I. V. Vasil'ev 497
- Support Design for Mines Exposed to Rockburst Hazard
V. N. Louchnikov, V. A. Eremenko, M. P. Sandy, and M. A. Kosyreva 504
-

Improvement of Design and Installation of Injection Rock Bolt Support <i>R. A. Ignat'ev and E. R. Ignat'ev</i>	513
Enhancing Efficiency of Rock Crushing Screening Utilization <i>F. L. Kapustin, V. A. Perepelitsyn, V. B. Ponomarev, and A. B. Loshkarev</i>	519
Assessment of Influence of Voids on Phase II Mining Safety at Artemievsk Deposit <i>Yu. N. Shaposhnik, A. A. Neverov, S. A. Neverov, and A. M. Nikol'sky</i>	524
Mine Aerogas dynamics	
Regularities of Two-Phase Gas Flow under Coal and Gas Outbursts in Mines <i>A. T. Zhou, K. Wang, T. A. Kiryaeva, and V. N. Oparin</i>	533
Mineral Dressing	
Finely Dispersed Micro- and Nano-Gold Recovery Using Thermomorphic Polymer with Diphenylphosphine <i>N. N. Matveeva, V. A. Chanturia, and A. O. Gapchich</i>	544
Platinum-Group Metals in Residual Soils and Potential Efficiency of Their Processing in Gravity Concentrators <i>T. N. Aleksandrova and I. V. Talovina</i>	553
Evaluation of Additional Iron Recovery from Iron Ore Tailings <i>E. K. Yakubailik, A. D. Balaev, and I. M. Ganzhenko</i>	559
Effect of Intergrowth Boundaries between Mineral Species of Ferruginous Quartzite on Ore Pretreatment <i>T. N. Gzogyan, Yu. I. Golovin, A. I. Tyurin, and S. R. Gzogyan</i>	565
Limit Moisture Content of Coal Concentrate Produced with Industrial Drainers <i>M. I. Shilyaev, A. I. Gorbunkov, A. R. Bogomolov, E. M. Khromova, and E. Yu. Temnikova</i>	573
Wollastonite Concentrate Production from Raw Material of Tyrnyauz Deposit <i>V. V. Marchevskaya, S. V. Tereshchenko, A. F. Baranovsky, E. V. Beluzhenko, and E. D. Rukhlenko</i>	585
Mining Ecology	
Geoinformation Modeling of Sulfide Frost Weathering in the Area of Udokan Deposit <i>V. A. Abramova, A. V. Parshin, A. E. Budyak, and A. P. Ptitsyn</i>	591
New Methods and Instruments in Mining	
Data Logging and Transmission System for Laser Strainmetering Equipment <i>A. Yu. Rybushkin, M. D. Parushkin, D. O. Tereshkin, and S. V. Panov</i>	598
Errata	
“Studying the Variation of Rotor Pressing Forces and Horizontal Soil Pressure during Shield Tunneling” [Journal of Mining Science, No. 2, Vol. 48 (2012)] <i>A. S. Voznesensky and S. V. Mazein</i>	603
“Mining Pollution Control Using Biogrouting” [Journal of Mining Science, No. 2, Vol. 53 (2017)] <i>Maryam Olfati, Ramin Doostmohammadi, and Forouzan Ghasemian Roodsari</i>	604
