Geomechanics

- Experimental Test of Directional Hydraulic Fracturing Technique
S. V. Serdyukov, M. V. Kurlenya, A. V. Patutin, L. A. Rybalkin, and T. V. Shilova 615
- Reconstruction of 3D Stress Field in Coal–Rock Mass by Solving Inverse Problem Using Tomography Data
L. A. Nazarova, L. A. Nazarov, and M. I. Protasov 623
- Numerical Modeling of Elastic Energy Accumulation and Release in Structurally Heterogeneous Geomaterials
S. V. Lavrikov and A. F. Revuzhenko 632
- Nanorange Mechanical and Fractal Properties of Rock Salt Crystal Surface and Their Effect on Fracture Toughness and Wettability
V. N. Aptukov and V. Yu. Mitin 638
- Effect of Tensile Strength of Rock on Tensile Fracture Toughness Using Experimental Test and PFC2D Simulation
H. Haeri, V. Sarfarazi, A. Hedayaf, and A. Tabaroei 647
-

Rock Failure

- Modeling Fracture Growth under Multiple Hydraulic Fracturing Using Viscous Fluid
I. V. Kolykhalov, P. A. Martynyuk, and E. N. Sher 662
- Geophysical Criterion of Pre-Outburst Crack Propagation in Coal Beds
A. V. Shadrin 670
- Variations of Temperature in Specimens of Rocks and Geomaterials under Failure
V. V. Seredin and A. S. Khrulev 683
- Estimation of Main Fracture Initiation Energy in Separating Stone Blocks from Rock Mass by Impact on Plastic Material in Drillhole
P. N. Tambovtsev 689
-

Science of Mining Machines

- Determination of Length of Horizontal Pneumatic Transport Line in Drilling Machine for Mud Removal by Negative Pressure
B. B. Danilov and B. N. Smolyanitsky 698
-

Mineral Mining Technology

- Single-Phase Local Optimization Model for Limestone Supply from Open Pit Mines to Heat Power Plants in Serbia
M. Radosavljević, S. Vujić, T. Boshevski, J. Prashtalo, and B. Jovanović 704
- Method and Estimation of Efficient Differentiation of Coal Reserves Based on Washability
E. V. Freidina, A. A. Botvinnik, and A. N. Dvornikova 712
- Stripping with Direct Dumping in Kuzbass Open Pit Mines: The Current State and Prospects
V. I. Cheskidov and V. K. Norri 725
- Optimal Mill Cut-Off Grade Modeling in the Mineral Deposits via MIP: Haftcheshmeh Copper Deposit
M. Gholinejad and E. Moosavi 732
-

Mine Aerogasdynamics

Evaluation of Ventilation Flow Charts for Double-Line Subway Tunnels without Air Chambers

A. M. Krasyuk, I. V. Lugin, E. L. Alferova, and L. A. Kiyanitsa 740

Cyclical Behavior of Methane Emissions in a Longwall

A. A. Ordin, A. M. Timoshenko, A. A. Metel'kov, and S. A. Kolenchuk 752

Optimal Design of Mine Ventilation System Using a Ventilation Improvement Index

Dong-kil Lee 762

Mineral Dressing

Effect of Acid and Electrochemical Treatment on Physicochemical and Electrical Properties of Tantalite, Columbite, Zircon and Feldspar

*V. A. Chanturia, E. L. Chanturia, I. Zh. Bunin, M. V. Ryazantseva,
E. V. Koporulina, A. L. Samusev, and N. E. Anashkina* 778

Rational Separation of Complex Copper–Zinc Concentrates of Sulfide Ore

V. A. Bocharov, V. A. Ignatkina, and A. A. Kayumov 793

Strength Research of Rock Cores after High-Energy Electron Beam Irradiation

S. A. Kondrat'ev, V. I. Rostovtsev, and I. I. Baksheeva 802

Efficient Physicochemical Processing of Waste of Coal-Firing Heat-Power Plants

V. S. Rimkevich, A. P. Sorokin, and O. V. Churushova 810

Geoinformation Science

An Approach to Multi-Layer Geoinformation System for Environmental Appraisal of Mining Regions Based on Biological Diversity

*V. P. Potapov, V. N. Oparin, E. L. Schastlivtsev, O. L. Giniyatullina,
I. E. Kharlampenkov, and P. V. Sidorenko* 818

New Methods and Instruments in Mining

Polymeric Insulating Compositions for Impervious Screening in Rock Masses

S. V. Serdyukov, T. V. Shilova, and A. N. Drobchik 826

Errata

Erratum to “Twin Tunnel Behavior under Static and Dynamic Loads of Shiraz Metro, Iran” [Journal of Mining Science, Vol. 52, No. 3 (2016)]

834
