Vol. 53, No. 4, 2017

A simultaneous English language translation of this journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Journal of Mining Science* ISSN 1062-7391

Geomechanics

Monitoring Potentially Hazardous Areas at Korobkovo Deposit of the Kursk Magnetic Anomaly

*V. V. Adushkin, S. B. Kishkina, V. I. Kulikov, D. N. Pavlov, V. N. Anisimov,
N. V. Saltykov, S. V. Sergeev, and V. G. Spungin* 605

Methods and Models for Analyzing Methane Sorption Capacity of Coal Based on Its Physicochemical Characteristics

V. N. Oparin, T. A. Kiryaeva, and V. P. Potapov 614

Geomechanical Estimation of Deformation Intensity above the Flooded Potash Mine

A. A. Baryakh and N. A. Samodelkina 630

Analysis of Two-Phase Gas–Water Flow in Carbonate Reservoirs

C. Li, X. Zhou, S. You, and J. J. Ibragimov 643

Gas Content and Structure of Coal in Donetsk Basin

*E. V. Ul'yanova, O. N. Malinnikova, A. V. Burchak, A. K. Balalaev,
and V. I. Baranovsky* 655

Numerical Modeling of Ground Movement due to Twin Tunnel Structure of Esfahan Subway, Iran

E. Moosavi, R. Shirinabadi, E. Rahimi, and M. Gholinejad 663

Science of Mining Machines

Finding Forces Required to Change Air Hammer Path in Soil

B. B. Danilov, B. N. Smolyanitsky, A. I. Chanyshv, and D. O. Cheshchin 676

Load-Bearing Capacity of Spiroid Gears of Mining Machine Drives under Peak Loads

V. N. Anferov and R. K. Kovalenko 686

Variation in Energy and Production Data of Pneumatic Percussive Machines in the Uplands

V. E. Erem'yants 694

Mineral Mining Technology

Technical Approach to Prediction of Dragline Productiveness in Blasted Rock Handling at Open Pit Mines in Permafrost Zone

S. V. Panishev and M. V. Kaimonov 702

Method of Shaping Loading-and-Transportation System in Deep Open Pit Complex Ore Mines

T. M. Kумыkova and V. Kh. Kумыkov† 708

Mineral Dressing

Modification of Structural, Chemical and Process Properties of Rare Metal Minerals under Treatment by High-Voltage Nanosecond Pulses

*V. A. Chanturia, I. Zh. Bunin, M. V. Ryazantseva, E. L. Chanturia,
I. A. Khabarova, E. V. Koporulina, and N. E. Anashkina*

718

Physical Adsorption Validity in Flotation

S. A. Kondrat'ev and E. A. Burdakova

734

Effect of Pulse-Discharge Treatment on Structural and Chemical Properties and Floatability of Sulfide Minerals

*N. K. Algebraistova, E. A. Burdakova, A. S. Romanchenko, A. S. Markova,
D. M. Kolotushkin, and A. V. Antonov*

743

Application of the Environmentally Non-Aggressive Dissolvents to Mobilize Metals in Tailings in the Norilsk Region

A. G. Mikhailov, M. Yu. Kharitonova, I. I. Vashlaev, and M. L. Sviridova

750

Rebellious Gold Extraction from Gravity Concentrates and Placer Tailings by Chemical Reagents

V. S. Alekseev and T. S. Banshchikova

756

Integrated Processing Technology for Calcium-Bearing Aluminosilicate Raw Material

V. S. Rimkevich, A. P. Sorokin, A. A. Pushkin, and I. V. Girenko

762

Effect of a Crushing Technique on Lead–Zinc Ore Processing Performance

N. G. Barnov, A. A. Lavrinenko, O. G. Lusinyan, and V. V. Chikhladze

771

Mining Ecology

The Results of the Long-Term Research on the Development of Anthropomorphic Soil in the Reclaimed and Successive Areas of the Most Basin in Czech Republic

M. Řehoř, M. Jarolimová, L. Žižka, P. Schmidt, P. Vráblík, and J. Vráblíková

778

New Methods and Instruments in Mining

Analytical Description of Surface of Blasting-Formed Underground Cavities by Laser Scanning Data

*V. N. Oparin, V. F. Yushkin, V. K. Klimko, D. E. Rublev, A. S. Izotov,
and A. V. Ivanov*
