## Vol. 54, No. 4, 2018

A simultaneous English language translation of this journal is available from Pleiades Publishing, Ltd.  
Distributed worldwide by Springer. *Journal of Mining Science* ISSN 1062-7391

---

### Geomechanics

Integrated Multi-Level Geomonitoring of Natural-and-Technical Objects in the Mining Industry

*N. N. Mel'nikov, A. I. Kalashnik, N. A. Kalashnik, and D. V. Zaporozhets* 535

Geomechanical and Hydrodynamic Fields in Producing Formation in the Vicinity of Well with Regard to Rock Mass Permeability–Effective Stress Relationship

*L. A. Nazarova and L. A. Nazarov* 541

Seismic Event in the Komsomolskaya Mine on the 25th of January, 2018

*N. N. Noskova, V. E. Asming, and A. V. Fedorov* 550

Monitoring of Ground Surface Displacement under Mining of the Sokolovo–Sarbai Deposit by the Radar Interferometry Method

*A. V. Usanova and S. V. Usanov* 556

---

### Rock Failure

Initiation of Tectonic Earthquakes during Underground Mining

*G. G. Kocharyan, A. M. Budkov, and S. B. Kishkina* 561

Blasting Methods of Stress State Determination in Rock Mass

*V. N. Tyupin and T. I. Rubashkina* 569

---

### Science of Mining Machines

Determining Displacements of Pulsed Electromagnetic Source of Seismic Signals

*V. V. Ivashin and V. P. Pevchev* 575

Design Methodology for Cutting Drum, Power Rating and Operational Control of Surface Miner under Varied Rock Conditions—An Approach

*Ch. Kumar, V.M.S.R. Murthy, L. A. Kumaraswamidhas, and A. Prakash* 582

---

### Mineral Mining Technology

Substantiation of Mining-and-Transportation System Type and Parameters for Mining Ore Deposits in the Conditions of the Kola Peninsula

*E. V. Gromov, A. L. Bilin, O. V. Belogorodtsev, and G. O. Nagovitsyn* 591

Optimization of Longwall Parameters in Underground Mining of Thick Methane-Bearing Coal Seam in the Sokolovo Deposit in Kuzbass

*A. A. Ordin, A. M. Timoshenko, D. V. Botvenko, A. A. Meshkov, and M. A. Volkov* 599
