Geomechanics

Estimation Procedure of Influence Exerted by Trigger Effects in Rock Mass on Technical Condition of Long-Term Operated Underground Structures

N. N. Abramov 709

Laboratory-Scale Modeling of Trigger Effects due to Gas Filtration in Fault Zones in Rocks

A. P. Bobryakov and A. F. Revuzhenko 716

Prediction of Basic Mechanical Properties of Tuffs Using Physical and Index Tests

A. Teymen 721

Geodynamic Safety of Mining Operations under Rockburst-Hazardous Conditions in the Khibiny Apatite Deposits

A. A. Kozyrev, V. I. Panin, I. E. Semenova, and O. G. Zhuravleva 734

Rock Failure

Initiation of Tectonic Earthquakes Caused by Surface Mining

G. G. Kocharyan and S. B. Kishkina 744

Research on the Influence Rule of Ultrasonic Vibration Time on Granite Damage

Dajun Zhao and Peng Yuan 751

Science of Mining Machines

A Mixed Weibull Method for Reliability Analysis of Tricone Roller Bits in Blasthole Drilling

S. Prakash and A. K. Mukhopadhyay 763

Mineral Mining Technology

Intersector Modeling and Mining

S. Vujić, S. Maksimović, M. Radosavljević, and D. Krnić 773

Procedure for Estimating Natural and Technological Components in Ash Content of Produced Coal

E. A. Khoyutanov and V. L. Gavrilov 782

Prediction of Top Coal Cavability Character of a Deep Coal Mine by Empirical and Numerical Methods

I. F. Öge 793

Lessons Learnt from Open Pit Wall Instabilities: Case Studies of BC Open Pit Hard Rock Mines

S. Nunoo 804

Mine Aerogasdynamics

Airflow Stability and Diagonal Mine Ventilation System Optimization: A Case Study

M. Bascompta, L. Sanmiquel, and H. Zhang

813

Mineral Dressing

Influence of Structural Features and Nature of Interaction between Minerals on the Selection of Methods for Lead-Bearing Ore Separation

*V. A. Bocharov, V. A. Ignatkina, A. A. Kayumov, A. R. Makavetskas,
and Yu. Yu. Fishchenko*

821

Technologies for the Beryllium Concentrate and Beryllium Hydroxide Production from Phenakite–Bertrandite Mineral Raw Material

V. E. Matyasova, Yu. M. Trubakov, A. V. Lavrent'ev, and A. V. Kurkov

831

Mineralization Kinetics of Air Bubble in Pyrite Slurry under Dynamic Conditions

A. A. Nikolaev, A. Batkhuyag, and B. E. Goryachev

840

Integrated Processing of Ash and Slag from Thermal Power Plants in Eastern Transbaikalia

V. P. Myazin, L. V. Shumilova, K. K. Razmakhnin, and S. A. Bogidaev

845

Mineralogical Features of Chalcopyrite and Sphalerite in Copper–Pyrite Ore Tailings in the Light of Prospects for the Purposeful Formation of Man-Made Deposits

E. A. Gorbatova, E. G. Ozhogina, M. V. Ryl'nikova, and D. N. Radchenko

858

New Methods and Instruments in Mining

Development of Test Bench for Investigation of Methane Filtration Intensification in Coal Samples

M. V. Kurlenya, M. N. Tsupov, and A. V. Savchenko

868

A Technique for Surveying of Ground Surface Deformations in Mine Fields

D. V. Dorokhov, F. K. Nizametdinov, S. G. Ozhigin, and S. B. Ozhigina

874
