Geomechanics

Stimulation of Underground Degassing in Coal Seams by Hydraulic Fracturing Method

M. V. Kurlenya, S. V. Serdyukov, A. V. Patutin, and T. V. Shilova 975

Seismic–Geomechanical Control of Water-Impervious Strata in Potassium Mines

A. A. Baryakh, I. A. Sanfirov, A. K. Fedoseev, A. I. Babkin, and A. A. Tsayukov 981

Assessment of Horizontal External Stresses in the Vorkuta Mine Field Using Seismic Tomography Data

V. N. Zakharov, L. A. Nazarova, M. I. Protasov, L. A. Nazarov, A. V. Panov, and A. P. Averin 993

Stress State of a Coal Pillar in Fully Mechanized Longwall Mining in Dislocation Zone

V. M. Seryakov, S. V. Rib, and V. N. Fryanov 1001

Procedure and Results of Geodynamic Monitoring in the Uzelga and Talgan Mining Areas in the South Ural

A. A. Panzhin, A. D. Sashurin, N. A. Panzhina, and E. Yu. Efremov 1009

Relation between High Tectonic Stresses and Endogenous Ring Structures

S. B. Stazhevsky and G. N. Khan 1016

Modeling Deformation Wave in Rock Mass near Deep-Level Tunnel

C. Qi, H. Chen, A. Chanyshv, J. Qi, and W. Wu 1025

A New Approach to Determining Multistage Hydraulic Fracture Size by Well Production Data

Q. Zhou, A. B. Zolotukhin, and A. T. Gayubov 1037

Science of Mining Machines

Energy-Based Volumetric Rock Destruction Criterion in the Rotary–Percussion Drilling Technology Improvement

V. N. Oparin, V. V. Timonin, V. N. Karpov, and B. N. Smolyanitsky 1043

Enhancing Efficiency of Rock Drilling Tool in Permafrost

N. G. Timofeev, R. M. Skryabin, and B. V. Yakovlev 1065

Influence of Soil Plug on Pipe Ramming Process

N. I. Aleksandrova 1073

Mineral Mining Technology

Experimental Estimate of Fracture Permeability with Proppant Made of Alumosilicate Microspheres in Shallow Hydraulic Fracturing in Oil Reservoirs

T. V. Shilova, M. V. Kurlenya, and S. V. Serdyukov

1085

Economic Expediency of Copper Ore Mining with Waste Rock Fill of Secondary Stopes in the West Wing of the Oktyabrsky Deposit

V. A. Uskov, S. A. Kondrat'ev, and S. A. Neverov

1090

Improvement of Support Technology in Artemevsk Mine of Vostoktsvetmet

*L. A. Krupnik, Yu. N. Shaposhnik, D. A. Shokarev, S. N. Shaposhnik,
and A. I. Konurin*

1096

Predicting Variation in Volume Density of Titanium–Magnetite Ore with Depth at the Gusevogorsk Deposit, Middle Ural

V. D. Kantemirov, A. M. Yakovlev, and R. S. Titov

1103

Mineral Dressing

Effect of Tannin on Compound Collector Adsorption and Stibnite and Arsenopyrite Flotation from Complex Ore

T. N. Matveeva, N. K. Gromova, and L. B. Lantsova

1108

Collectability and Selectivity of Physical Adsorption of Carboxylic Acids in Flotation

S. A. Kondrat'ev, I. I. Baksheeva, and D. V. Sem'yanova

1116

Comparative Analysis of Sequential Leaching Procedures for Dissociation of Rare Earth Elements in Gold-Bearing Material

*N. F. Usmanova, V. I. Bragin, A. M. Zhizhaev, E. N. Merkulova, and
G. N. Bondarenko*

1124

Magnetic Parameters of Separation Products and Impurity Aggregates in Concentrates

E. K. Yakubailik, I. M. Ganzhenko, A. D. Balaev, and P. Yu. Butov

1133

Experimental Research of Pay Section Formation in Gold Mining Waste

V. S. Alekseev, P. P. Sas, and R. S. Sery

1141

New Methods and Instruments in Mining

Test Bench to Study Complex Stress Evolution in Geomaterials under Weak Dynamic Loads

V. P. Kosykh, P. V. Kosykh, and A. F. Revuzhenko

1147

Instrumentation System for Synchronous Recording of EME and Mechanical Deformation Parameters in Lab-Scale Tests of Rock Specimens

A. G. Vostretsov, G. I. Kulakov, A. A. Bizyaev, and G. E. Yakovitskaya

1152
