Asymptotic Normality and Efficiency of the Maximum Likelihood Estimator for the Parameter of a Ballistic Random Walk in a Random Environment

*M. Falconnet, D. Loukianova, and C. Matias*

1

Concentration Inequalities for the Exponential Weighting Method

*Yu. Golubev and D. Ostrovski*

20

Asymptotic Properties of Pseudo Maximum Likelihood Estimators and Test in Semi-Parametric Copula Models with Multiple Change Points

*S. Bouzebda*

38

Estimation of the Parameters of an Exponential Distribution Under Constrained Location

*Y. M. Tripathi, S. Kumar, and C. Petropoulos*
