Vol. 18, No. 1, 2009

Testing Hypotheses on the “Drift” of Parameters in ARMA and ARCH Models <i>M. V. Boldin and I. G. Erlikh</i>	1
Estimation of the Distribution of Random Shifts Deformation <i>I. Castillo and J.-M. Loubes</i>	21
Truncated Sequential Estimation of the Parameter of a First Order Autoregressive Process with Dependent Noises <i>D. Fourdrinier, V. Konev, and S. Pergamenshchikov</i>	43
Adaptive Density Estimation of Stationary β -Mixing and τ -Mixing Processes <i>M. Lerasle</i>	59
A Quantitative Weak Law of Large Numbers and Its Application to the Delta Method <i>M. Weba</i>	84
