

Contents

Vol. 23, No. 3, 2014

Maximum Likelihood Estimation in the Context of a Sub-Ballistic Random Walk
in a Parametric Random Environment

M. Falconnet, A. Gloter, and D. Loukianova 159

General Regularization Schemes for Signal Detection in Inverse Problems

C. Marteau and P. Mathé 176

Estimating a Density under Pointwise Constraints on the Derivatives

U. Müller and W. Wefelmeyer 201

Strong Approximation of Multidimensional $\mathbb{P}$ - $\mathbb{P}$ Plots Processes by Gaussian Processes
with Applications to Statistical Tests

S. Bouzebda and T. Zari 210
