Vol. 26, No. 4, 2017

Laguerre Deconvolution with Unknown Matrix Operator <i>F. Comte and G. Mabon</i>	237
Statistical Foundations for Assessing the Difference between the Classical and Weighted-Gini Betas <i>N. Gribkova and R. Zitikis</i>	267
Minimax Signal Detection under Weak Noise Assumptions <i>C. Marteau and Th. Sapatinas</i>	282
On Estimation in Some Reduced Rank Extended Growth Curve Models <i>T. von Rosen and D. von Rosen</i>	299
On Joint Weak Reversed Hazard Rate Order under Symmetric Copulas <i>N. Balakrishnan, G. Barmalzan, and S. Kosari</i>	311
